Subject: Ignore utility companies' scare tactics

Dear Commissioner Johnson,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

Dear Commissioner Johnson,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

Dear Commissioner Johnson,

21 years. That is how long AEP has been listed as a Fortune 500 company. So please tell me why it would be ok for a company that rakes in billions, in net profit, to raise my electric bill when I'm barely making my monthly house payment. They can hide behind numbers all day long, but the only numbers that matter are telling you that the rich are getting richer by riding on the backs of the working class.
Please stop the rate hikes! Please.

Subject: Ohioans should not be screwed by FirstEnergy

Dear Commissioner Johnson,

FirstEnergy is trying to play it both ways and screw Ohioans.

They want to compete in the competitive market AND demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Either make them compete in a competitive market or reregulate them entirely. Don't let them have it both ways!

I don't live in Ohio, but I know enough about what FirstEnergy is doing to recognize that this will affect what I pay for electricity in Pennsylvania.

Please protect hard-working people, Ohioans and otherwise, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to corporate welfare B.S.
