Subject: Ignore utility companies' scare tactics

Dear Commissioner Johnson,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Theresa Weber  
806 Lovett Pl

Dear Commissioner Johnson,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

My wife and I are retired and live on a fixed income. We have invested in making our home as energy efficient as we can, but our AEP electric bill continues to go up no matter what we do! We now pay more in AEP "riders" than we do in actual KWH usage on our bills. A few years ago, AEP was allowed by courts to keep \$365,000 in documented overcharges to customers. This utility has a license to steal and PUCO is in their pocket by allowing more and more riders to protect their profits which are excessive. I don't know of many businesses that don't invest some of their own profits to update their infrastructure. AEP wants this also paid for by customers. There is no true competition in Ohio's electrical utilities and consumers suffer because of it.

Dear Commissioner Johnson,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future. The cost of living for elderly continues to rise. While, The retirement or savings is not keeping pace with. Food, Medical, Energy cost. Help by keeping energy cost in check

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

Dear Commissioner Johnson,

As a consumer I am tired of BIG business, Banking, and Utilities screaming that they are not making any money since 2008 business's have been making record BILLIONS, how they maintain and manage money is not the consumers fault, it is clearly greed and mismanagement. They (as in all enviroment's) should have been updating their facilities as national standards have progressed and changed thru the years. Constantly looking to the consumer for more funding/revenue should not be the answer to all their debts or lack of money, we have to live within our means, they should too. Middle class Ohioans are just as cash strapped as the rest of the America. I strongly urge you to vote...NO....

PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

Dear Commissioner Johnson,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

I am 80+ years old and on a fixed income. Each month my utilities increase not because of my usage but because of all the add on fees being thrown into my bill. I have to make a decision each month, electric and heat or medicines. I can't live without the heat and electricity, so I guess my health takes a back seat. Please for the sake of us senior citizens do not let First Energy make us pay more. Thank you.

PUCO Case #: 14-1297-EL-SSO; 14-1693; 14-1694

First Energy has already been allowed to do away with the promise of special rates for all electric homes and a discount for the installation of a load control device in my home.

But most important, this action will negatively impact growth of the economy in this area. Companies will most definitely consider the cost of power in our state when thinking about moving to or expanding in Ohio.

Dear Commissioner Johnson,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

LISA BOYSEL

Dear Commissioner Johnson,

AEP and FirstEnergy are trying to hijack Pennsylvanians' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Pennsylvanians', seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUC to put a stop to this corporate welfare.

Even though this originated in Ohio there is no doubt that the same issues and rate hikes are upon First Energy customers here in PA.

Dear Commissioner Johnson,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #: 14-1297-EL-SSO; 14-1693; 14-1694

Aep is stealing money from thousands of people. My mother is 71 and on a fixed income. I have enrolled her with IGS to help lower her bill from paying \$0.089 per kwh with AEP to \$0.062 from IGS. Well it worked for a while but then AEP decided to raise her distribution and other charges making it to where as much electricity as she uses that gets paid to IGS they get roughly the same amount. She used \$153 dollars in electric but had AEP charges of \$149 dollars. On my bill they informed me the less electric I use the higher my distribution is going to be for they can get the money they need. There is no reason for this other than they are stealing money from us and now they want to raise their prices. No one can afford to have this happen and we as the people are asking for your help and support.

Sincerely,

Dear Commissioner Johnson,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab. I myself have five meters and which already don't trust Toledo Edison company's billing procedures and overcharging on estimated to actual reads as to which my concerns have been noted to puco but the power monopoly is way to far into itself that my word has no effect for myself and my citizens i reduce my usage in business practices and in my family of nine home practices to save energy as they instruct us to do but then complain on not using enough and raise the base rate as well as Columbia gas does and even have the dasity to call you and complain. as a business owner myself I think they need to deal with the change of saving energy and reduce there manpower to such deal with the greater change

PUCO Case #: 14-1297-EL-SSO; 14-1693; 14-1694

This is absolutely hysterical. I have not received a pay raise in several years and have to figure out ways to pay for things that continuously go up in price. Making consumers pay for upgrades so they can not only keep their inflated profit margins but also increase them is a slap in the face of hard working Ohioans. Going down this path will be detrimental to many of us, forcing us to do what we have been trying to avoid, to rely on the government for assistance. This is another attempt to obliterate the middle class and to make the poor, poorer. How this is even being considered is beyond comprehension. Please do not allow First Energy and or other profit mongering energy companies to hold Ohioans hostage. Take a Stand for Ohio!

Dear Commissioner Johnson,

here is a good way to put it to the people you own your car like your wiring source to your house when you buy gas to use it you drive it but when you think you have control of your gas budget and decide to not drive it to save fuel that's your decision well power is fuel if I decide to not turn on the switch to save on my budget or not use my machines to save money then I shouldn't be charged a raised up basic rate to hand out to there mistake or others mistakes I still own my car and don't have to pay the gas filling station a base rate I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

Subject: Pull the Plug on Utility Handouts

Dear Commissioner Johnson,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Maureen Dodd

Subject: we do not want to subsidize First Energys' plan

Dear Commissioner Johnson,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694
