

BEFORE

THE PUBLIC UTILITIES COMMISSION OF OHIO

In the Matter of the Alternative Energy)
Portfolio Status Report for 2014 of) Case No. 15-718-EL-ACP
Palmco Power OH, LLC.)

FINDING AND ORDER

The Commission finds:

- (1) Palmco Power OH, LLC (Palmco) is an electric services company as defined in R.C. 4928.01(A)(9) and, as such, is subject to the jurisdiction of this Commission.
- (2) R.C. 4928.64(B)(2) establishes benchmarks for electric services companies to acquire a portion of their electricity supply for retail customers in Ohio from renewable energy resources. R.C. 4928.645 provides that an electric utility or electric services company may use renewable energy credits (RECs) and solar energy credits (SRECs) to meet its respective renewable energy and solar benchmarks. Ohio Adm.Code 4901:1-40-01(BB) defines a REC as the environmental attributes associated with one megawatt hour (MWh) of electricity generated by a renewable energy resource, except for electricity generated by facilities as described in Ohio Adm.Code 4901:1-40-04(E).
- (3) Ohio Adm.Code 4901:1-40-05(A) requires each electric services company to annually file by April 15 an alternative energy portfolio status report (AEPS report), unless otherwise ordered by the Commission. The AEPS report must analyze all activities the company undertook in the previous year in order to demonstrate how pertinent alternative energy portfolio benchmarks have been met. Staff then conducts an annual compliance review of the company's filing and the records of the applicable attribute tracking system to ensure that RECs were sourced from generating facilities certified by the Commission and were appropriately associated with electricity generated for the compliance period.

- (4) On April 14, 2015, Palmco filed its 2014 AEPS report, proposing to use a compliance baseline of 9,289 MWH, which it indicated was an average of its Ohio retail electric sales for 2012 and 2013. In addition, Palmco reported that it satisfied its 2014 compliance obligations.
- (5) On October 21, 2015, Staff filed a report of its Review and Recommendations for Palmco's 2014 AEPS report. Staff reports that Palmco is an electric services company in the state of Ohio, and thus had an AEPS obligation for 2014. Staff reviewed Palmco's attribute tracking system account record to verify compliance, and determined that Palmco has satisfied its 2014 compliance obligations. Further, Staff recommends that, for future compliance years, Palmco initiate the transfer of the appropriate RECs and SRECs to its attribute tracking system reserve subaccounts between March 1 and April 15 so as to precede the filing of its annual AEPS report with the Commission.
- (6) Upon review of Palmco's 2014 AEPS report, and the records of these proceedings, we adopt Staff's recommendations. We find that Palmco's 2014 proposed compliance baseline is reasonable, and that Palmco has met its compliance obligations for 2014. Further, Palmco is directed to comply with Staff's recommendations for future compliance years.

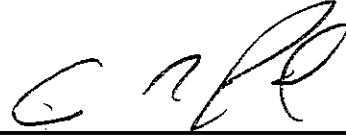

It is, therefore,

ORDERED, That Palmco has met its AEPS compliance obligations for 2014, and its 2014 AEPS report is accepted as filed. It is, further,

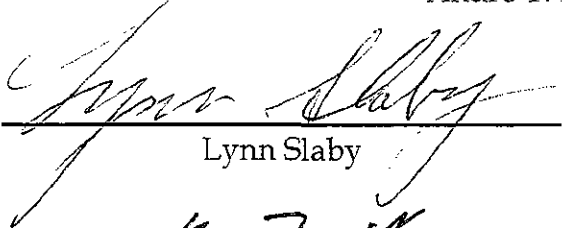

ORDERED, That Palmco comply with Staff's recommendations adopted herein. It is, further,

ORDERED, That a copy of this Finding and Order be served upon all parties of record.
