Subject: FW: Deregulation or not?
Date: Wednesday, February 10, 2016 3:13:51 PM

-----Original Message-----

From: David Klapp [<mailto:rcmodel1@hotmail.com>]
Sent: Tuesday, February 09, 2016 11:51 PM
To: Porter, Andre <Andre.Porter@puc.state.oh.us>
Subject: Deregulation or not?

Dear Chairman Porter,

I have a decade of employment with AEP and I feel compelled to write this letter. I am very familiar with the issues at hand and the requests being made by AEP and others for financial support. Unfortunately I can not support this effort. AEP fought deregulating within the state of Ohio for a long time and only recently completed the process. To offer AEP Energy and other deregulated businesses special treatment goes against the purpose of effort and prevents the necessary competition to control energy prices. Further AEP as a regulated entity already receives a premium compensation as the "Provider of Last Resort". This mechanism is intended to properly compensate a utility provider to perform the necessary functions to serve customer load as a last resort, this includes purchasing the necessary generation capacity from the market and curtailing its customer loads to maintain the system during times of heavy stress. An additional method, as requested by AEP and First Energy, for such compensation is being paid twice for the same function.

I respectfully request a thorough examination of this proposal and a decision which best protects Ohio consumers and not competitive businesses.

Thank you
David Klapp

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

My wife and I are retired and live on a fixed income. We have invested in making our home as energy efficient as we can, but our AEP electric bill continues to go up no matter what we do! We now pay more in AEP "riders" than we do in actual KWH usage on our bills. A few years ago, AEP was allowed by courts to keep \$365,000 in documented overcharges to customers. This utility has a license to steal and PUCO is in their pocket by allowing more and more riders to protect their profits which are excessive. I don't know of many businesses that don't invest some of their own profits to update their infrastructure. AEP wants this also paid for by customers. There is no true competition in Ohio's electrical utilities and consumers suffer because of it.

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future. The cost of living for elderly continues to rise. While, The retirement or savings is not keeping pace with. Food, Medical, Energy cost. Help by keeping energy cost in check

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

James

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Roz Waxman

Let's also prevent a back slide in our laws. More and more giant companies are buying up the smaller ones causing America to fall back into a monopolized business structure. This ruined the economic standing of the United States once, and the anti trust laws were created to protect the economic balance, create jobs, and provide choice to the American people (<http://legal-dictionary.thefreedictionary.com/monopoly>). Please don't go backwards!

Subject: Ignore utility companies' scare tactics

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Kelvin Ricks

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

Subject: Ignore utility companies' scare tactics

Dear Chairman Porter,

FirstEnergy already screwed us back in 2008 and got \$6 billion from us to cover its stranded assets. Now, they want to screw us again. I say absolutely not!

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

Dear Chairman Porter,

As a consumer I am tired of BIG business, Banking, and Utilities screaming that they are not making any money since 2008 business's have been making record BILLIONS, how they maintain and manage money is not the consumers fault, it is clearly greed and mismanagement. They (as in all enviroment's) should have been updating their facilities as national standards have progressed and changed thru the years. Constantly looking to the consumer for more funding/revenue should not be the answer to all their debts or lack of money, we have to live within our means, they should too. Middle class Ohioans are just as cash strapped as the rest of the America. I strongly urge you to vote...NO....

PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

Subject: No handouts for AEP or FirstEnergy

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Subject: Protect Ohioans from Utility Power Plays

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Concerned citizen, Travis Roth

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

First Energy has already been allowed to do away with the promise of special rates for all electric homes and a discount for the installation of a load control device in my home.

But most important, this action will negatively impact growth of the economy in this area. Companies will most definitely consider the cost of power in our state when thinking about moving to or expanding in Ohio.

Subject: Protect Ohioans from Utility Power Plays

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

I am 80+ years old and on a fixed income. Each month my utilities increase not because of my usage but because of all the add on fees being thrown into my bill. I have to make a decision each month, electric and heat or medicines. I can't live without the heat and electricity, so I guess my health takes a back seat. Please for the sake of us senior citizens do not let First Energy make us pay more. Thank you.
PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Rose Gagliardi

Subject: Protect Ohioans from Utility Power Plays

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

I am a single mom working two jobs just to make my ends meet. I don't get government handouts and see no reason why I should pay for their mistakes. What they charge for electricity is outrageous. Put a STOP to this NOW

Sincerely,

Meaghan

Subject: Protect Ohioans from Utility Power Plays

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Lucille Hunsinger

Subject: Protect Ohioans from Utility Power Plays

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Michael Fishking

Subject: Protect Ohioans from Utility Power Plays

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Diana Keller

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

i am further frustrated by FirstEnergy's purchasing naming rights to the Cleveland Browns Football Stadium. We, the consumers, are picking up the tab for this ridiculous, needless, wasteful expense as well. How can a monopoly have need of such advertising - they have a captive market. It is not like switching grocery stores, gas stations, even medical care providers. No alternatives exist.

Another practice I find even more despicable is allowing customers with all-electric homes to benefit from high discounts that are subsidized by all other classes of customers - how is that NOT discriminatory?

Yet another thorn in the side of those customers like myself is add-ons by all utilities to subsidize low-income users' utility bills. I work hard for my money; how dare the utilities charge me for somebody else's consumption! Put an end to this frivolous freeloading at once already! Next thing you know, in addition to their Ohio card benefits, Medicaid & Obamacare subsidies, they will be coming after us to gas up their cars - at our expense.

I realize the foregoing is not relevant to the PUCO, but it should be to the elected officials who will see these responses.

Sincerely,

Ted Coons

Subject: Protect Ohioans from Utility Power Plays

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Jim George, retired
4351 Pine Lake Dr
Medina, OH 44256

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Marie Ranier

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

I have paid some of the highest rates for electricity for over 30 years. The only way I can have a bill under \$100 is to go on vacation for over three weeks. In central Ohio I had whole house air conditioning and didn't pay over \$90 a month.

We continue to pay for a nuclear power plant that iOS continually off line. First Energy should use what they have better a not spend so much on advertising on tv and nameing rights for stadiums.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

As a personal note: Our latest electric bill was \$454.00, We are a family of 4. There is no furnace in our home, we have gas fireplaces, the same fans run in the winter as in the summer. Our summer bills are between \$65.00-\$75.00. When I call A.E.P., their only answer is "Pay it or your service will be terminated!" They are already ripping us off, PLEASE give them no more ammunition.

Sincerely,

Sherri Maynard

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Aep is stealing money from thousands of people. My mother is 71 and on a fixed income. I have enrolled her with IGS to help lower her bill from paying \$0.089 per kwh with AEP to \$0.062 from IGS. Well it worked for a while but then AEP decided to raise her distribution and other charges making it to where as much electricity as she uses that gets paid to IGS they get roughly the same amount. She used \$153 dollars in electric but had AEP charges of \$149 dollars. On my bill they informed me the less electric I use the higher my distribution is going to be for they can get the money they need. There is no reason for this other than they are stealing money from us and now they want to raise their prices. No one can afford to have this happen and we as the people are asking for your help and support.

Sincerely,

Nicole Bennington

Subject: Pull the Plug on Utility Handouts

Dear Commissioner Johnson,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

This is absolutely hysterical. I have not received a pay raise in several years and have to figure out ways to pay for things that continuously go up in price. Making consumers pay for upgrades so they can not only keep their inflated profit margins but also increase them is a slap in the face of hard working Ohioans. Going down this path will be detrimental to many of us, forcing us to do what we have been trying to avoid, to rely on the government for assistance. This is another attempt to obliterate the middle class and to make the poor, poorer. How this is even being considered is beyond comprehension. Please do not allow First Energy and or other profit mongering energy companies to hold Ohioans hostage. Take a Stand for Ohio!

Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab. I myself have five meters and which already don't trust Toledo Edison company's billing procedures and overcharging on estimated to actual reads as to which my concerns have been noted to puco but the power monopoly is way to far into itself that my word has no effect for myself and my citizens i reduce my usage in business practices and in my family of nine home practices to save energy as they instruct us to do but then complain on not using enough and raise the base rate as well as Columbia gas does and even have the dasity to call you and complain. as a business owner myself I think they need to deal with the change of saving energy and reduce there manpower to such deal with the greater change

Dear Chairman Porter,

here is a good way to put it to the people you own your car like your wiring source to your house when you buy gas to use it you drive it but when you think you have control of your gas budget and decide to not drive it to save fuel that's your decision well power is fuel if I decide to not turn on the switch to save on my budget or not use my machines to save money then I shouldn't be charged a raised up basic rate to hand out to there mistake or others mistakes I still own my car and don't have to pay the gas filling station a base rate I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

Subject: Pull the Plug on Utility Handouts

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Lisa Steigerwald-Kana

Subject: Pull the Plug on Utility Handouts

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

MRS. JOLENE K KOVACS

Subject: Pull the Plug on Utility Handouts

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

colleen winer

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Kevin Iles

Public Utilities are regulated for the good of the public because they are monopolies. Public Utilities are entitled to bill customers enough to cover equipment, labor, and facilities costs. Any profit achieved should be from efficiency. Rate increases should be justifiable via legally binding accounting audits presented to the PUCO and public press. In other words, all rate increases should be transparent to the public.

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Barbara Kakiris

Dear Chairman Porter,

I just received an electric bill for a 1400sq/ft ranch electric updated, all energy efficient appliances and thermal window treatments. To beat all I have a propane stove. The weather last month was mild and imagine my shock, and yes despair to received a bill of \$344.85. It does not take a rocket scientist to see a problem there. I cried because it is either pay it or get groceries. We never have had a winter bill more than 250.00 in the sub zero weather. I called the electric co they said my house was old they expect us to possibly pay \$600.00/mo. Please we consumers need help this started back when electricity billing was made variable. We can't afford it. No one should cry when they get a utility bill. I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

Subject: Pull the Plug on Utility Handouts

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Sean Mahaffey

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old and dirty power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas. They should close them.

It's outrageous that my electric bill will go up while these companies are earning millions of dollars and paying hefty dividends to their shareholders. If you believe in competition then this proposal is a huge step backwards. Please stand up for Ohio consumers and businesses by telling the PUCO to reject AEP's and FirstEnergy's money grab.

Subject: Pull the Plug on Utility Handouts

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

James Hartman

Subject: Pull the Plug on Utility Handouts

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Michael Lenhart

Subject: we do not want to subsidize First Energys' plan

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.
