Subject: AEP and First energy rate hike

Dear Chairman Porter,

AEP and FirstEnergy are trying to raise our utility bills. I am a business owner in Canton Ohio. I feel this is unfair and it will cause me and others financial stress. Please do what you can to stop this

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

To: Porter, Andre <[Andre.Porter@puc.state.oh.us](mailto:Andre.Porter@puc.state.oh.us)>  
Subject: Do not approve Power Purchase Agreements

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

Subject: Ignore utility companies' scare tactics

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Gary Chrostowski

Subject: Ignore utility companies' scare tactics

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

ALAN PISETSKY  
PO Box 316  
Austinburg, OH 44010

First Energy CHEATED me in a bait and switch in 2006. I was offered and accepted a REDUCED electric rate for ALL ELECTRIC home. I put in a second meter to benefit from a reduced rate for my geo installation. After a short time they pulled the PLUG on the program!! I AM STUCK!!!!!!!!!!

Subject: Ignore utility companies' scare tactics

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

Subject: Ignore utility companies' scare tactics

Dear Chairman Porter,

Why is it that when I talk about First Energy I feel like I'm talking about the mob? The idea that consumers should subsidize their outdated unprofitable plants feels a bit like paying them Protection money.

Deregulation was intended to create competition and drive prices down. You know, the grand "Free Market" that all public servants claim to love? Now that First Energy is on the losing end of that deal thanks to their shortsightedness, they expect us to pony up the difference and reward them handsomely with generous profits. And their justification is that these new gas powered plants may some day be more expensive to operate than their outdated coal fired and troubled nuclear plants? Have they checked out fracking lately?? Give me a break! I'll take my chances, thank you very much.

What really frosts me is how PUCO, the regulatory body who is supposed to represent US, gets carried around in First Energy's pockets, like so many nickels and dimes. Enough with the backroom deals, closed door meetings and non-disclosure requirements. Tell First Energy that the PEOPLE deserve better and the FREE MARKET has spoken. Or as my Grandpappy would have said "Go Pound Salt!".

Thank you.

Subject: Ignore utility companies' scare tactics

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Michael Perry  
1308 Millikin Pl NE  
Warren, OH 44483

Subject: Ignore utility companies' scare tactics

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

Quit approving every little thing that the electric company's put across your desk, it is ridiculous that every month there is a new charge that is approved by PUCO. Any more you have to choose between either paying your electric bill or having food to eat to survive.

All the Charges that they charge are outrageous, Basic Charge, Transmission Charge, Generation Charge and 2 or 3 others, and that is before you even get to the real bill of how much you actually used in electricity, It is getting so bad that what the electric company charges are more than what we used in electric. STOP THE THIEVERY and stop it NOW.

Subject: Ignore utility companies' scare tactics

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

smokcs  
1000 Ralston Ave Apt 24

Dear Chairman Porter,

I happen to personally know AEP corporate officers have been in a DO NOTHING mode for years now. I do not feel their lack of action should be the tax payers burden. Maybe this was their plan all along. Do nothing until they can say it's now a desperate situation. All the while collecting their exorbitant wages. Corporate is responsible ! They kept turning down contracts ! This is their problem not ours ! Don't reward bad business habits (greediness) ! Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Subject: Ignore utility companies' scare tactics

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Suzette Durst

Subject: Ignore utility companies' scare tactics

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

We should not have to pay because First Energy doesn't know how to change it's business plan. They ask us to conserve electricity and now they want us to pay because we are not using as much electricity. That's crazy.

Dear Chairman Porter,

Fracking is up, oil prices down. Still First Energy says they need more money from the consumers. We lost the discounts we were promised if we had all electric homes. Our bills have gone up every year. How much is enough? Apparently there never is a limit to the profit the utility companies want to make off the back of the people who are dependent on them. Stop the greed and deny the rate increase that First Energy is requesting.

Subject: Ignore utility companies' scare tactics

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Frank Guzman  
4087 Dobbins Rd  
Youngstown, OH 44514

Subject: Ignore utility companies' scare tactics

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

Subject: Protect Ohioans from AEP and First Energy gaming captive Ohio utility consumers

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

-----  
First Energy Executive Chairman Anthony J. Alexander was paid/compensated \$10,890,217 for the year 2014.

First Energy EVP, Market & Chief Legal Officer Leila L. Vespoli was paid \$2,539,054 for 2014.

First Energy President & CEO Charles E. Jones Jr., was paid \$2,307,238 for 2014.

First Energy SVP & CFO James F. Pearson was paid \$ 2,345,904 for 2014.

First Energy President, FE Generation James H. Lash was paid \$ 1,856,086 for 2014.

-----  
The PUCO needs to decide to ---NOT--- force Ohio citizens/consumers to pay for upgrades to First Energy and AEP power plants because of their negligence in maintaining their power plants. There are better and more affordable power generating options available.

No more corporate gouging and gaming utility consumers.

Subject: Protect Ohioans from Utility Power Plays

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Brenda Rogers

If my car breaks down or I need a new furnace I can't just go to my employer and tell them I'm gonna give you the same service, but it's going to cost you 20% more to cover my problems. Part of running a business is planning for maintenance and upgrades. If the management of a company like that failed to plan then we should all get refunds of First Energy Stock. Anybody could do a better job. It's just way too easy to gain profit, give upper management bonuses and raises, then when things need fixed just fund it on the backs of the consumer! We're tired of it!

Subject: Protect Ohioans from Utility Power Plays

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

Subject: Protect Ohioans from Utility Power Plays

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Nadine a. Bowen

Subject: Protect Ohioans from Utility Power Plays

Dear Chairman Porter,

Our rates have skyrocketed in the 17 years we have lived in our all-electric home. New, clean, natural gas plants are providing alternatives to old. We paid more than \$500/month twice last winter to heat a 2200 square ft. home to 65 degrees last winter. There are no natural gas lines available where we live, and the electric company monopoly is killing our budget.

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694f

Enough is enough - I purchased my home in 2003 - my monthly budget was 77 dollars per month - I am a single man - nothing has changed in my home - still just me here - I have purchased/replaced my heating and cooling system and my water tank - these new appliances are billed as 100% efficient - now in 2016 my electric budget is 204 dollars a month - that is a crazy increase amount in 13 years - have you yourself gotten a pay raise that size? I haven't. Now AEP wants even more of my money - they are making a 1.9 billion profit per year, and they want more - enough is enough - I need you and I request you to say No to AEP.

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Mike Fulkerson  
14500 Courtland Ave  
Cleveland, OH 44111

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Chris Ogden Sr.

Subject: Protect Ohioans from Utility Power Plays

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Subject: Protect Ohioans from Utility Power Plays

Dear Chairman Porter,

My monthly bill goes up & up, even though my family is doing all we can to reduce it. Upon a closer look I see a Customer Charge (Why am I being CHARGED to be a customer?) as well as THREE "rider" charges (Retail stability, Deferred Asset Phase-in, and Phase-in Recovery) on my bill. These are in ADDITION to 3 separate line items for service provided. Is AEP trying to confuse the consumer with all this minutia? I believe so.

I am also deeply concerned with the possibility that the PUCO will subsidize AEP and FirstEnergy for their lack of foresight in not preparing their power plants to be more profitable in the face of increased energy efficiency. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

Subject: Protect Ohioans from Utility Power Plays

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Stephen Spears

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return. As I sit here, I see a TV ad claiming that higher rates will result in the development of renewables, but natural gas isn't renewable. The utilities' lobbyists have consistently fought to beat back clean energy mandates in Ohio. Instead, they work to give bigger dividends to their shareholders. How is that in the public interest?

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

Subject: Protect Ohioans from Utility Power Plays

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Gary Bair SR

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694. I believe the power companies should use the profits they have made to improve their old equipment just like any other manufacturer would do rather than have their retired customers like myself pay for their improvements. They make enough money in profits that they can afford to put the money back into their business rather than in their pockets.

Subject: Protect Ohioans from Utility Power Plays

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Sarah Wilder

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Utility and food prices continue to rise, wages are stagnant, employers use staffing agencies to avoid paying benefits.

Companies should not be able to raise rates on consumers to pay for someone else that did not pay their share, AEP should have taken action earlier to prevent their loss. It's not the consumer responsibility to bail them out.

As for employers using staffing agencies, the employer should have to hire the employee after a specific time. There are employees that work over 18 months and are still working through a staffing agency. This is over a sufficient time for the employer to know if work orders are constant and the employee is qualified. An employee should not have to work over a year as a temporary employee.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Donna Bryan  
1222 Pfeifer Dr  
Zanesville, OH 43701

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

ALSO WHEN I LIVE ON A FIXED INCOME AND DID NOT GET A COST OF LIVING RAISE, YOU TAKE MY ELECTRIC BILL FROM 150.00/MONTH TO 384.00/MONTH!!!!!! How can that be when I am only ONE person living at my house and it jumps up 200%????? I can't BUY ANY FOOD THIS MONTH THANKS TO YOU GREEDY PEOPLE!!! Think of me at dinner when you are eating your steak and potatoes when I only have Roman of Noodles with beef flavor!!! ENJOY!!!!

ALSO, when I asked for help, everyone I talked to said "I DON'T KNOW WHAT YOU ARE GOING TO DO, MR. SCHULER"!

In another scenario, first energy had enough money to buy the naming rights to the Browns stadium so let them pay for their own businesses. As a consumer I am so tired of looking at my bills with all of the add on charges we as consumers have to pay, because we have no recourse.

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Henry J Cardillo  
120 Ashland Ln  
Aurora, OH 44202

Last week I called FirstEnergy to find out how delivery fees were calculated, define distribution related componenet, economic development component, cost recovery charges, bypassable generation and transmission related component and customer charger. No one could tell me. My electric bill is as high this MILD winter as it is with central air all summer. My house has a gas stove and furnace. My consumption is about the same as last year is all I was told but why are the rates increasing when I have the lowest rate I can possible get?

Subject: Pull the Plug on Utility Handouts

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

edwin santiago  
3355 W 97th St

Subject: Pull the Plug on Utility Handouts

Dear Chairman Porter,

I cannot pay my electric bill now! I live alone. Work full time. Furnace set on 55. Bill is 278. I do not want my bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Sandra Cavinee  
120 West St  
Roseville, OH 43777

PUCO already allowed the companies a few years ago to start raising rates by getting rid of the grandfathered houses that were all electric. As soon as this happened First Energy (Ohio Edison) has raised my rates every single year.

Subject: Pull the Plug on Utility Handouts

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Robert coon

Subject: Pull the Plug on Utility Handouts

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Brian Ward  
1510 Amberwood Ln  
Painesville, OH 44077

I am tired of being the fall guy, paying for others mistakes. Dig into the CEOs pay packages instead of adding this to my electric bill.

As it is now we buy energy efficient appliances, use energy efficient light bulbs and still our bills increase!

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Sherry Stischok  
6046 Wexford Park Dr

I come from mich where a cap exists on electric companies. We pay twice as much for electricity in Ohio. We are charged twice; from the pole to the socket, then from the socket to the devise. Led lights don't lower it. When I asked why, I was told we pay for time, not for wattage! Outrageous! Aep is a monopoly. Someone needs to control their greed!!

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

Subject: Pull the Plug on Utility Handouts

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Nick Speer  
5350 Ambrosia Ave  
Columbus, OH 43235

Dear Chairman Porter,

I spoke to the PUCO years ago stating that my electric bill would go from about 200 a month to 800 with those proposed changes. I have made extensive upgrades and my bill is almost 500 per month. AEP is being a bully about this. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

I have my own company and need a new work truck badly, to charge my customers a "transition fee" to pay for a new truck would be immoral and absurd! For years I have been complaining concerning these transition fees. Part of owning a business is you have to invest your own money in order to make money. The name transition fee is an attempt to hide the fact of what this fee actually is. Transition implies something has changed. Nothing has changed! Every company has to invest and re-invest their money into the company in order to stay in business, why would the energy companies be any different. My power has went out so many times its unbelievable, 9 times in 6 months one year due to squirrels which I do not believe. These companies are making tons of money and do not need a hand out!

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Subject: Pull the Plug on Utility Handouts

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

michael dyal  
4228 Portobello Dr  
Columbus, OH 43230

Subject: Pull the Plug on Utility Handouts

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Karl Johnson  
1722 W 28th St  
Cleveland, OH 44113

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Terry Lancaster  
3655 Randolph Rd  
Mogadore, OH 44260

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Subject: Pull the Plug on Utility Handouts

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

James McClelland  
1732 Greendale Ave  
Findlay, OH 45840

Subject: Start representing the best interest of the consumer!

Dear Chairman Porter,

The public is clearly tired of the PUCO only representing the interest of the utilities to the detriment of the consumer. You told us that "Choice" would be to our benefit then you proceeded to allow the utilities, both gas and electric, to initiate and then repeatedly increase monthly base charges which have no relationship to usage. The bills stay high because the utility is awarded ever higher fees regardless of what is paid for the underlying energy. Start protecting the consumer for a change.

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

Subject: Tell the PUCO "NO to rate increases"

Dear Chairman Porter,

When we built our home in 1990 Ohio Edison offered that if we built an all electric home that we would get our electric at a cheaper rate. Ohio Edison/First energy was allowed to resend that offer and now we can barely afford our electric. Ohio Edison charges a Distribution Related Component which almost equals what I am being charged for electric. So that doubles my bill. Please don't make us the consumers pay for First Energy/ Ohio Edison's mistakes. No more hand outs.

The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and further rate increases.
