Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

Subject: Ignore utility companies' scare tactics

Dear Commissioner Johnson,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

Dear Commissioner Johnson,

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

The proposed rate hikes are not justified. The hikes are misguided efforts compensate for not investing in clean energy in the past. First Energy is now feeling the effects of their lack of foresight.

Simply put, they do not deserve a bailout by their customers. I have been retired since 2005 on fixed income and have seen continuous price hikes over the years. Any additional monies would go to executive bonuses, salaries, and to re-establishing the \$2.20 dividend to shareholders.

The rate hike should be rejected outright.

Sincerely,

Subject: Protect Ohioans from Utility Power Plays

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

Subject: Pull the Plug on Utility Handouts

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

Thank you Donielle,

We moved so want to make sure our address is changed in your system: 4205 Stanley Drive, Carrollton, Texas 75010. Also, we have a support email you can add alongside mine: support@rapidpower.net

I already completed our annual reports as a power broker and made our address change there, as well.

Can you review our account with the PUC and make sure we are in good standing?

Sincerely,

Christa Taylor | Operations Manager

We Moved! Please make note of our new corporate address:
