Columbus, OH 43215

My family and I are concerned about the bailout of old, polluting technology that only benefits utility stakeholders and delays investing in efficiency and renewable energy. I firmly believe we need to think of more environmentally friendly energy. Global warming is real!

I also believe that reducing our dependence on coal for electricity reduces mercury and other contamination from polluting drinking water from Lake Erie and the Ohio River. I work at a park and the goal is to make the Cuyahoga River cleaner for recreational use within the next five years. This can be accomplished if the state of Ohio takes a stand and makes some changes to benefit all of us and not the chosen few.

CASE#14-1693-EL-SSO

Dear Sir/Madam  
RE case no. 14-1693-SE-SSO

I wish to express my concern about what is happening to our environment,  
Reducing our dependence on coal for electricity reduces mercury and other  
contamination from polluting drinking water from lake Erie and the Ohio River

Thank you,  
Max Lloyd  
Brunswick Ohio

Columbus OH 43215

To Whom It May Concern:

A bailout of old, polluting technology only benefits utility shareholders and delays investment in efficiency and renewable energy.

Our infrastructure needs modernization and new ideas. Families depend upon it.

Sincerely,

A handwritten signature in black ink, appearing to read "John Wright", with a stylized flourish at the end.
