Feb. 5, 2016

Dear Members of PUCO,

Is it true that Ohio has the 3rd highest rate of air pollution in the country ??? How embarrassing !!

It isn't as if it isn't possible for us to lower that rate and clean our ^{air} and water. We know how. We count on you, our governing bodies, to make it happen.

Please deny the rate increase to lock us, the dependent consumers, into buying power from Ohio's oldest, dirtiest coal plants. Would a mother want to pay more to buy dirty clothes, or worse yet, dirty polluted food? We must have power but at what cost?

Please oppose an "indefinite freeze" of our clean air standards. Can we put an "indefinite freeze" on how long we have to hold our breath???

We cannot encourage—or even allow—the power companies to use old out-dated polluted technology. While I do not want to cripple the coal industry which many Ohio citizens depend on for their income ~~but~~ more Ohio citizens (ALL!!!) count on clean air and water to live healthy lives.

Please— we count on you to safeguard our health—and our pocket books. Don't make us pay to harm ourselves!!

Sincerely,
Wendy M. Love
lovewen@jinci.rr.com

I'm writing to request that you please deny the rate increase to lock consumers into buying power from coal plants. We must strive for a cleaner future for all. We do not inherit the Earth from our parents; we borrow it from our children...

Sincerely Concerned Citizen,

A handwritten signature in black ink, appearing to read "Stephanie Hug".

RE: Case #14-1297-EL-SSO; #14-1693-EL-SSO

Dear Commissioner,

I am writing for the health of my children and the future of our community. It is my understanding that Duke Energy, AEP and First Energy are requesting rate increases to cover the cost of operating old coal plants that are relics of the past. Does Ohio want to be stuck in the steam engine era? Do you want to encourage the kind of air pollution that gave Pittsburgh a black eye in the last century?

Healthy neighborhoods and clean air - free from the mercury and other pollutants associated with burning coal - make ecological sense. They also make good business practice when you factor in all the costs associated with air pollution, including lost work time, medical costs, loss of new businesses moving into the community, and of course, lawsuits and fines for noncompliance with EPA standards. Your business model is clearly outdated.

Please deny any rate increase that will support coal power plants. And please oppose an “indefinite freeze” of our clean energy standards. We need to support sustainable energy for a green future!

Thank you for making Ohio a healthy place to live.

Sincerely,

Gregory F. Hladky

Dear PUCO -

14-1297-EL-SSO

14-1693-EL-SSO

Stop the Bailouts +
End the freeze!

Eric Wolfe

TO: PUCO

Please, Stop the freeze of our clean energy standards. Renewable energy can bring jobs, innovation, and better health to us Oklahomans. A rate increase to lock consumers into buying from old coal plants merely delays the inevitable need for us to switch to cleaner energy, with the added cost of polluting our air & water. By lessening our reliance on coal, we can have cheaper energy bills & lower our impact on an already troubled environment.

I want to leave my daughter with a cleaner earth, not pass on the hidden costs of coal powered energy.

Sincerely,

Bridgid Gallagher-Sauer
Bridgid Gallagher-Sauer

Greetings,

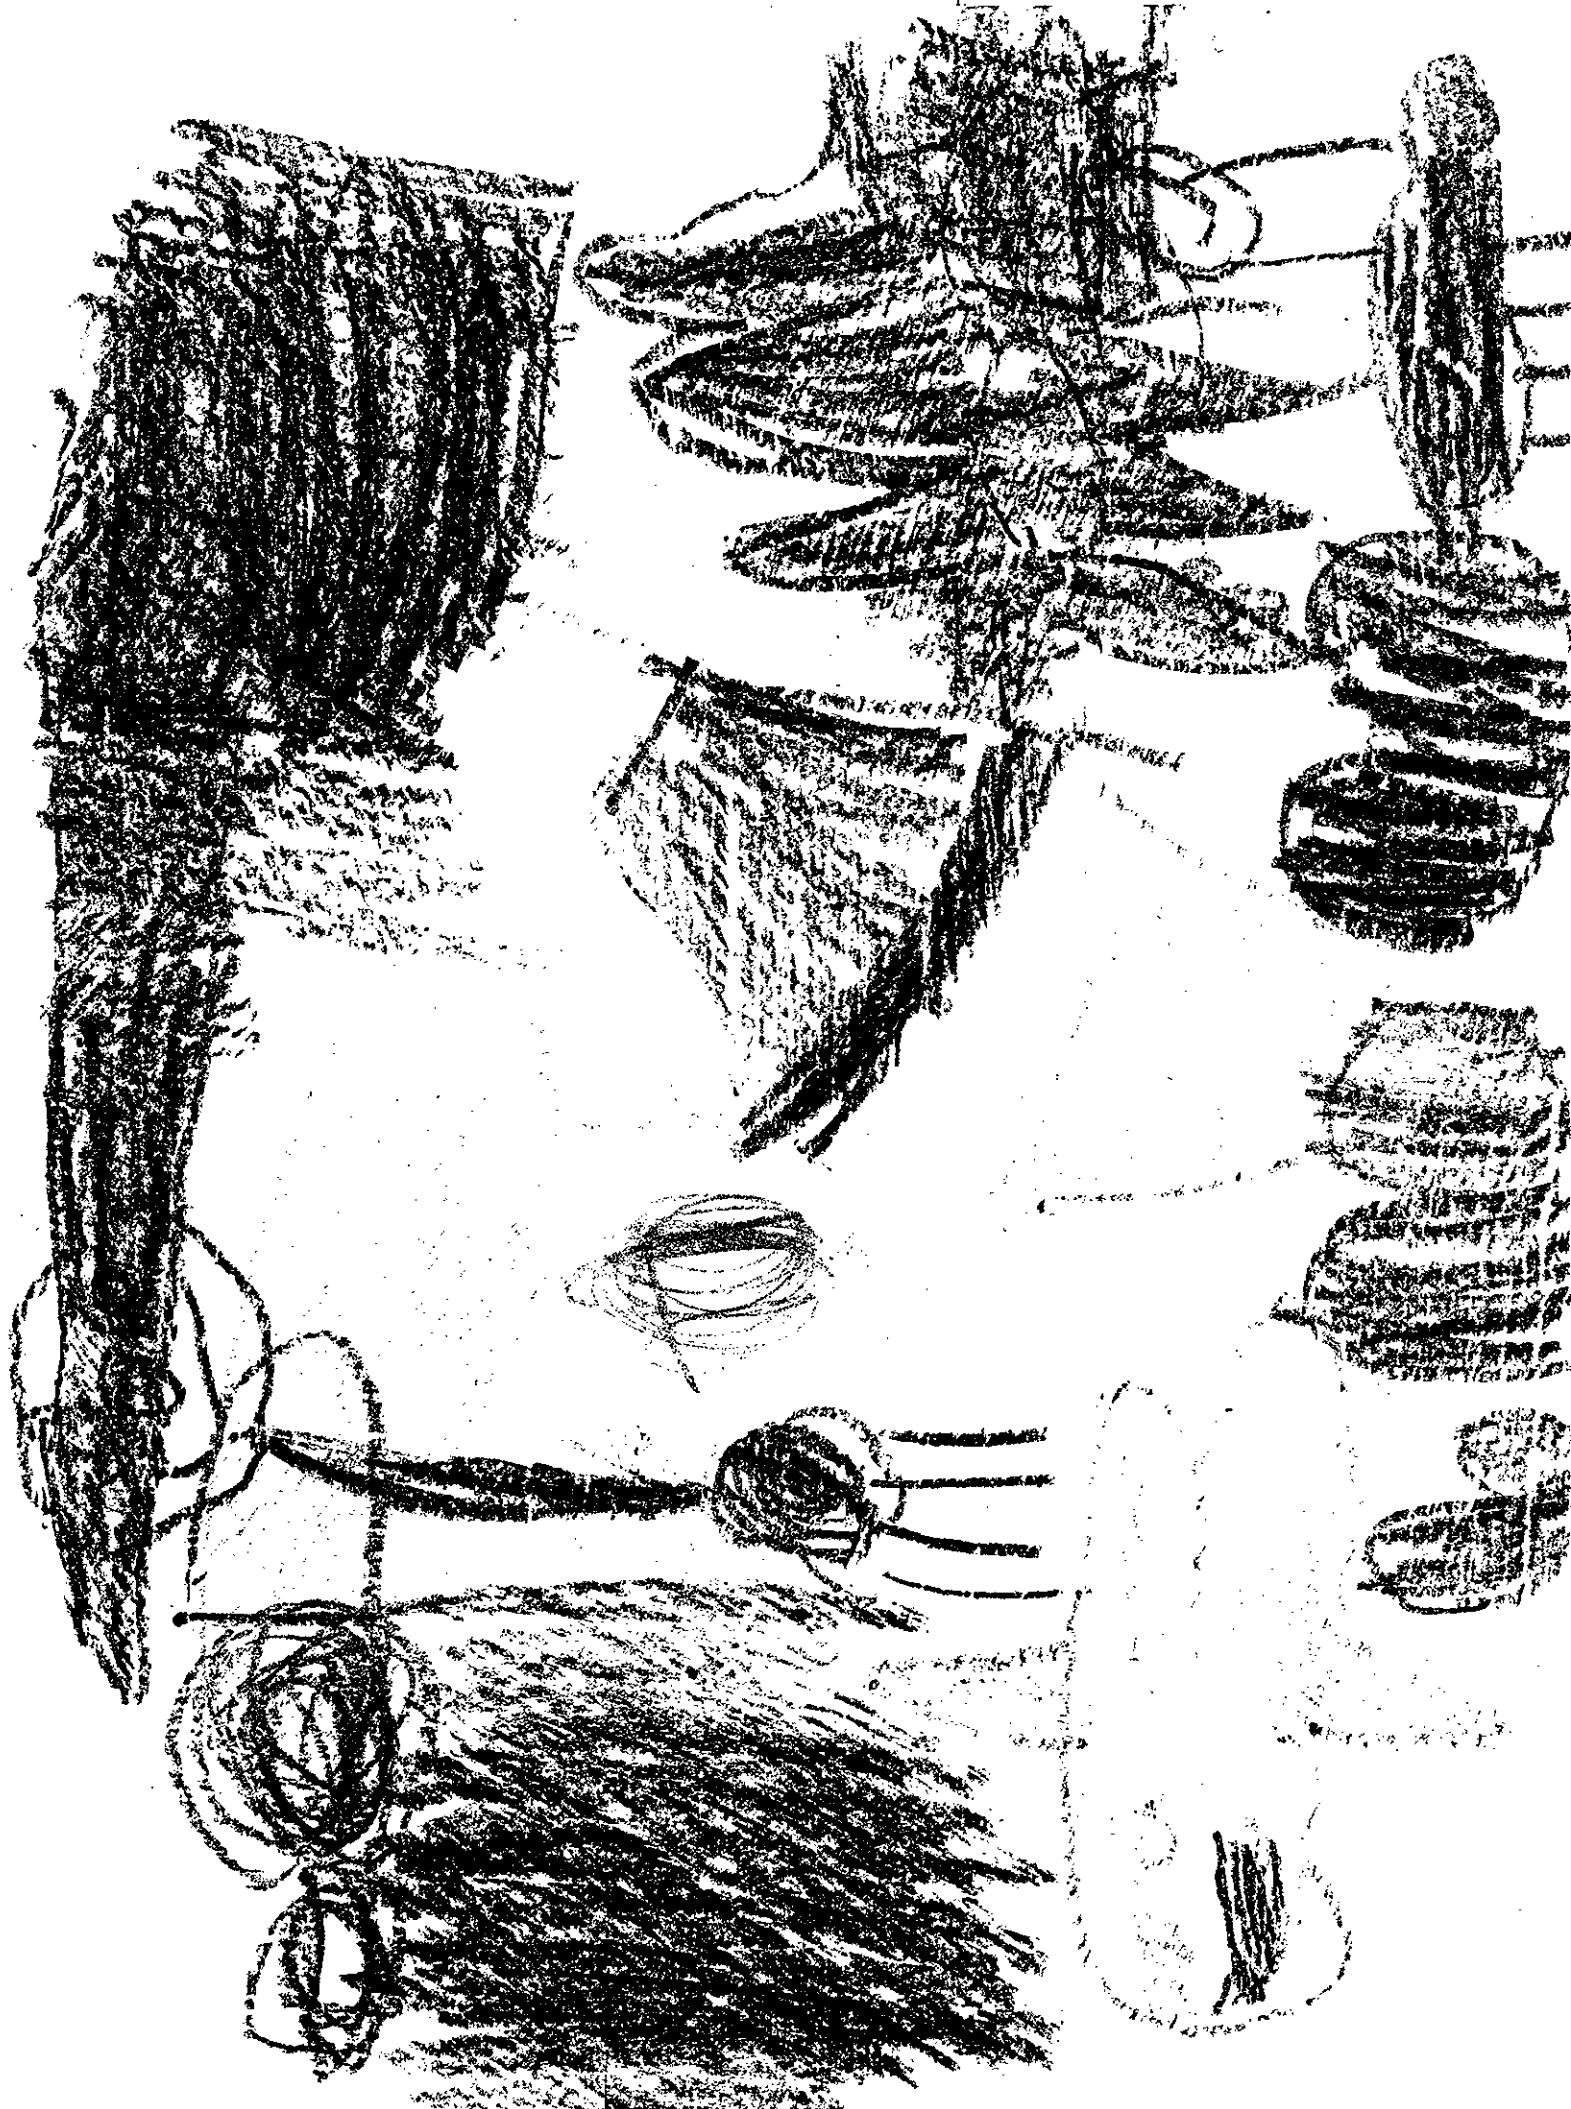

I am writing because my family and I care about reducing toxic pollution and saving money on our electric bill. Please concentrate more resources and work to limiting the pollution of our air and water that leads to deaths and sickness for everyone, inside and outside of Ohio.

Thank You,

Julie Beach

14-1297-EL-SSO

14-1693-EL-SSO

To the Public Utilities Commission of Ohio,

Thank you for taking the time to read my letter. I am writing as a show of support for clean energy proposals that look to move past outdated coal plants. I realize coal will not be replaced quickly, but investment in alternative energy can allow the dated plants to be phased out, and contribute to better air quality.

History will be on the side of those who help pioneer this change, in my opinion. Thank you for your time and please, help move our country forward on this initiative.

Sincerely,

Nicole F Timmerman RN, BSN, CCRN

Dear Sir,

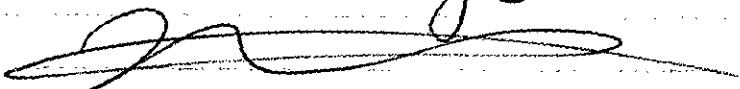

The global warming debate is over - unless we act soon our children & grand children will look to us in our old age & wonder why we didn't act when we had a chance.

There can be no debate - just look at our weather 70°F Decenters?

Please, I beg that you do what you can to help - simple things like

- Supply cleaner energy.
- not burning our cities - in the guise of "back up power" - and instead keep open all the older coal stations
- instead - please do not increase our rates to keep these old stations airtight & then close & force instant into cleaner fuels

Finally, please enforce & accelerate adoption of clean energy

Pence

it is time to stop the
handout to companies and
think about the working class.

deny the rate increase. Thanks

Dear PUCO,

Don't make more bad air.

Please Deny the rate increase to lock Consumers into buying power from Ohio's oldest Coal plants.

A bailout of old polluting technology only benefits utility shareholders & delays investment in efficiency & renewable energy.

I am a mother of 3 + I want my children to have a cleaner environment in the future. I don't mind putting my time & money into this cause, but if we keep bailing out old technology, progress will be halted.

My son had lead poisoning at the age of 9 months from gutter work being done on our home. The roofers we hired were RPP Certified & followed those rules, but my son got lead poisoning anyway. We need hire standards!

Don't make us subsidize pollution!

Marci Taylor

Dear Governor Kasich,

Limiting pollution to our air
and water leads to fewer deaths
and sicknesses for everyone, inside
and outside Ohio.

Priscilla Cummins

Dear Public Utilities
Commission of Ohio,

I do not agree with
a rate increase for
utilities that encourages
the use of coal-powered
plants.

The cases 14-1297-EL-
SSO and 14-1693-EL-SSO
are, therefore, concerning.

I believe we should be
reducing our dependence
on coal-powered energy,
so please use your
influence to represent
Ohio's needs appropriately.

Best regards,

Phineas Tan

Dear PUC of Ohio,

I would like your group to discontinue funding of coal fired plants and divert those funds to clean air education and incentives (wind, solar, etc)

This refers to case #'s:

14-1297-EL-SSO

14-1693-EL-SSO

Please encourage all Ohioans to plant a tree and install methods that do not contribute to poor air quality. Support Solar and Wind power! Thank you,
Suzanne Stark

DEAR POLO,

CLEAN ENERGY IS BETTER THAN DIRTY ENERGY. FLINT, MICHIGAN IS A REAL PLACE IN THE U.S. THAT IS UNABLE TO SUPPLY CLEAN DRINKING WATER DUE TO THE PRACTICE OF OUTDATED SYSTEMS. INFRASTRUCTURE IS HORRIBLY MAINTAINED, WHILE SERVING AS AN INTEGRAL PART OF LIFE. PLEASE DO NOT BAILOUT FAILING INFRASTRUCTURE, INSTEAD BEGIN BETTER PRACTICES THAT WILL ENSURE QUALITY OF LIFE FOR THE FUTURE.

SINCERELY,

DANIEL RILEY
