Feb. 22, 2016

To: The Public Utilities Commissioners

I'm writing to encourage the commission to deny the rate increase by First Energy, case # 14-1297-EL-SSO.

I care about this issue because I care about reducing toxic pollutions in our environment. We should be investing in new, cleaner energy systems that are renewable and more efficient.

Both my wife and I hope the commission does the right thing, and vote "NO" on the rate increase.

To Members of Public Utilities Commission of Ohio,
My husband Robert St. Leger and I write
to urge you to do away with any bailout
for First Energy (case # 14-1297-EL-SSO)
and to please deny any rate increase to
make customers carry the cost of buying
power from old, inefficient, and dirty coal
plants. It's past time to invest in
renewable energy. We resent having to pay
a rate increase so that stockholders can
continue receiving their usual dividends.
Your comments will be appreciated.

Thank you, Belinda St. Leger
