PCD

Dear Commissioner Johnson,

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

**PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694**

**Subject:** Protect Ohioans from Utility Power Plays

Dear Commissioner Johnson,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

**Subject:** Pull the Plug on Utility Handouts

Dear Commissioner Johnson,

MY BIGGEST COMPLAINT IS THAT THEY PAID FOR NAMING RIGHTS TO ONE OF THE SPORTING VENUES IN DOWNTOWN CLEVELAND --- WHY DO THEY NEED TO ADVERTISE? HOW MUCH DID THAT COST? THEY'RE THE ONLY ELECTRIC COMPANY THAT I CAN USE -- I DON'T NEED THEM TO ADVERTISE LIKE QUICKEN LOANS.

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

Subject: Ignore utility companies' scare tactics

Dear Commissioner Johnson,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

Utility regulators MUST REMEMBER that they are charged with the goal of ENSURING that our power companies procure the lowest cost, most reliable service for their customers. Utility regulators must also remember that utility companies, unlike competitive corporations, enjoy a "cost of service" guaranteed revenue stream. Every dollar spent is recouped from a captive base of customers - even though those dollars are spent wastefully - exactly what the regulators are charged with controlling.

An example of outrageous spending, in my opinion and the opinion of many others, is the excessive salary paid to the CEO of First Energy. His salary has been the highest of all CEO's in NE Ohio- as well as among the highest nationally for many years. This fact has been displayed in both "Crain's" and "The Wall Street Journal". Why is that allowed for a public utility???

Please, for the sake of all captive customers, stop the utilities from once again overcharging everyone. Not to mention the fact that the cause of climate change IS NOT AT ALL PROVEN TO BE FROM CO2 caused by mankind! Please do your research. CO2 is in fact only .04% of the atmosphere. The UN "scientists" were PAID to announce their bogus findings.
