PUCCO

I received a letter from Duke Energy about a proposed natural gas transmission line project - The Central Corridor Extension Project. My home on Ridge Road may be on one of the proposed lines (the Pink Route and Potential Constuctability Route). I am concerned about how this may affect the traffic in front of my home. My home was built in 1924 before the setback rules were in effect in Amberley Village, and and my home is very close to Ridge Rd. This section of Ridge Rd. is a heavily traveled two-lane road with bumper to bumper slow traffic at morning and early evening rush hour times. I'm worried that if the proposed line is put in in front of my home, which is on the west side of Ridge Rd., the work being done and the gas line would be within several feet of my house. Please take this into consideration when deciding which proposed route option will be constructed if the project is approved.

Thank you,

Carrie Lipps
