To whom it may concern:

My time is too valuable to spend the time to write a letter outlining all of my objections to First Energy's proposed rate increase, so I'll be brief.

NO! NO BAILOUT, NO RATE INCREASE. IT IS NOT NECESSARY. MY ELECTRIC BILLS ARE TOO HIGH AS IT IS!

I have written the Governor as well.

Thank you.

Respectfully,

Don Chernota

Re: First Energy 14-1297-EL-SSO

Dear Sirs and Madams:

I am writing to urge you and Governor Kasich to **DENY** a rate increase for Ohio customers because of the many issues with First Energy and it's old, dirty coal plants. My family and I are hoping Ohio will move forward and work to find new energy resources which will be clean and safe for all Ohioans. Other states are investigating and investing in cleaner, non-polluting energy. New jobs will be created when these new suppliers are in place. The issue of a "nonbypassable" charge is ludicrous – to be charged even if a customer chooses another energy supplier. The bailout **MUST NOT** be given !

Sincerely,

Anne Billington

FIRST ENERGY
CASE #

14-1297-EL-SSO

Dear PUCO,

My family and I care about reducing toxic pollution and saving money on our electric bills.

A bailout of old polluting technology only benefits utility shareholders and delays inevitable investment in efficiency and renewable energy.

Please deny the rate increase to lock consumers into buying power from Ohio's oldest, dirtiest coal plants.

Sincerely,

Jennifer Badinghaus
