OHIO RAIL DEVELOPMENT COMMISSION
INTER-OFFICE COMMUNICATION

TO: Randall Schumacher, Supervisor, Rail Division, PUCO
FROM: Cathy Stout, Manager, Safety Section, ORDC *Cathy Stout*
SUBJECT: ATH Brawn Street, DOT# 513476S, PID 99304, PUCO Case 15-1054-RR-FED
DATE: March 24, 2016

The Public Utilities Commission of Ohio (PUCO) established a diagnostic survey at the subject location on October 16, 2014. The Diagnostic Team recommended the improvement of warning devices to flashing lights and roadway gates. Subsequently a project was established and PUCO Case opened.

Since that date changes have been reported in the data that qualified the project for federal funding. The total trains per day at selection was four (4) trains per day. Norfolk Southern reports that this line is out of service or will be going out of service in the near future. ORDC is in the process of cancelling federal funding for this project.

The ORDC supports the cancellation of the project.

Thank you for your assistance with these matters.

c: George Martin, PUCO
ORDC Project Manager (file)
