Public Utilities Commission of Ohio  
180 East Broad Street  
Columbus OH 43215

To the Public Utilities Commission,

I want Ohio to be a leader in clean energy. My family cares about reducing toxic pollution now and in the future. Please do not allow the rate increase that Duke Energy, AEP and First Energy are asking for. We should not be supporting old, dirty coal plants with bailouts in this day and age of technological advances in clean energy.

Again, I urge you to deny the rate increase the energy companies are asking for, and work to require utility companies to adhere to clean energy programs.

Thank you very much,

Melissa Richmond
