Dear Governor Kasich.

In Re: Case numbers 14-1297-EL-SSO and 14-1693-EL-SSO

I am writing to you to ask that you and your administration to please deny the rate increase to lock consumers into buying power from Ohio's oldest, dirtiest coal plants. I ask that you limit pollution in our air and water to lead to fewer deaths and sickness for everyone inside and outside Ohio.

A bailout of old polluting technology only benefits the utility shareholders and delays investment in efficiency and renewable energy. My family and I care about reducing toxic pollution and saving money on our electric bills.

Reducing our dependence on coal for electricity reduces mercury and other contamination from polluting our drinking water from Lake Erie and the Ohio River. I know that I want safe drinking water for myself and my family...who doesn't?

Thank you for your time,

Mark Nicoletti
