14-1694-EL-AAM

Dear PUCO,

Dear Ohio Public Utilities Commission,

I am pleased to hear AEP's new plan calls for the transition of more than 1500 megawatts of generation beyond coal, and the development in the next five years of 900 megawatts of new wind and solar. Having installed solar panels and bought an electric car, I am on board! the money I paid stays right here in Ohio. But I do not think we should bail out the utility for its old coal plants.

Creating these sustainable jobs and industry in Appalachian Ohio provides tremendous new benefits for the region. Hiring Ohio veterans helps serve those Ohioans that have already given so much and we owe not just thanks, but opportunities.

It is my hope the PUCO Commissioners will prioritize clean energy development, and hold AEP to its clean energy and coal transition commitments.

Sincerely yours,

Sincerely,

Alexa Ross
