Notes:

Please docket the attached in the case number above.

**COMMENT DESCRIPTION:**

Those of us who conserve quite extensively, and still have a very high electric bill and on a fixed income....cannot afford a rate increase that AEP and Dayton Power and Light are asking for. There are only two people in my household, my 39 years old son that is developmentally disabled and myself, conserve and still have an electric bill for the month of February the amount of \$317.00. and not much better for March at \$291.00. My other son who is customer of South Central Power, his wife and 3 sons do not have a high electric bill as I. His home is all electric as mine is. Do not grant a rate increase, we simply cannot afford it.
