COMPLAINT DESCRIPTION:

This complaint is in response to the requested increase by First Energy Corporation. If this increase is allowed it is an assured position of impropriety. BY NO MEANS OR INFERENCE OR OTHERWISE LEGAL ANYTHING DOES OR IS First Energy Corporation Entitled to an increase in rates for their insufficient services. If anything they should reduce rates and the income of the CEO and it's Board of Directors. I will personally have a problem with the director of the PUCO and its governing body should the allowance of ANY utility increase be allowed by you decree and will do EVERYTHING in my power to see that you are removed from your post and punished accordingly for any action that gives First Energy or any other utility the allowance to do anything but DECREASE energy rates!

COMPLAINT DESCRIPTION:

Why on earth would the PUCO approve a deal to allow First Energy to continue to run high cost plants at the expense of its constituents just so some people will retain a job. This makes about as much sense as back when the railroads were required to station an unneeded man in the caboose just to provide for a additional salary for a railroad worker. This isn't what the free market society is all about. If the PUCO isn't intelligent enough to understand this, how can we replace them?

COMMENT DESCRIPTION:

RE: Keeping old coal burning plants running. Dear sirs/maadams, It is appalling that the PUCO Board approved FE and its cohorts the opportunity to grant the higher rates to keep old, polluting coal plants running, especially in the face of a more cost efficient, natural gas option. As we all know Lobby money and cronyism run hand in hand in columbus but at some point the elected and hence appointed board members need to "man up" for the people. As i am one voice in the crowd, I will continue to disparage and sound the alarm on the grease that continues to flow to said officials and manipulate the decisions above. The results of this last decision has really depressed my confidence in the PUCO. As the the members continue to gorge themselves at fancy meals and the like, our environment suffers as well as the people. Pls contact me at your convenience if u think u can successfully stop this "poluttet" PUCO from this most egregious decision as well as further personal interests.... Best Regards, Paul

Dear Commissioner Johnson,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

Dear Commissioner Johnson,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

To: Puco Docketing
Subject: Testimony for Docket of Case No: 14-1297-EL-SSO

Dear Chair Public Utilities Commission Ohio Andre Porter,

Over a year ago the Public Utilities Commission of Ohio held a series of public hearings regarding FirstEnergy's proposed rate increase in Akron, Cleveland, and Toledo. At each of those hearings, and particularly in Cleveland, dozens of ratepayers testified against giving more of our money to FirstEnergy than we already do, for power plants that our regional grid operator says we do not need. Now, more than a year and many iterations later, the original plan has morphed not for the better, but continues to be considered by the PUCO.

The Plain Dealer reported in November that PUCO staff met privately with lawyers from FirstEnergy and negotiated a new version of the bailout plan. Through newspaper reporting we know that the term of the bailout has shortened, but no effort has been made by the PUCO to explain this new version of the plan to the public. We the people of northeast Ohio We will be forced to pay to bailout old power plants and guarantee profit for an investor owned utility for the next 8 years if you accept the plan as is. Our communities have not had an opportunity to learn about the revised plan and comment on it. We need to be informed about what this plan is and we need a chance to meaningfully comment on it.

Recent polling by the AARP shows that voters do not want to guarantee profit for FirstEnergy, an investor owned utility for the next eight years. We ask that the PUCO hold another set of hearings on the FirstEnergy rate case in FirstEnergy territory. At these hearings please include a summary of what the plan is at this point and be ready to take testimony from us, the ratepayers, and the public, who you serve as a commissioner on the Public Utilities Commission.

IT IS NOT MY OBLIGATION TO PROP UP FIRST ENERGY'S POOR BUSINESS CHOICES!!! WE BELIEVE IN FREE MARKET COMPETITION UNTIL IT ACTUALLY DOES NOT WORK FOR SOME FAVORED BUSINESS!!!! PRESENTLY ENERGY CHOICE4 IS LIKE AN OLD SOVIET ELECTION: FIRST ENERGY, FIRST ENERGY OR FIRST ENERGY!!!!

KILL THE SUBSIDY FOR FIRST ENERGY! LET THEIR SHAREHOLDERS FIRE THE CEO AND GET SOMEONE IN WHO CAN MAKE THE COMPANY COMPETITIVE AGAIN!!!!

Sincerely,

Sincerely,

Michael Klein
