#	Question	Answer
1	Were the competitive bidding rules violated?	No.
2	Does the Auction Manager believe the auction was open, fair, transparent, and competitive?	Yes.
3	Did bidders have sufficient information to prepare for the auction?	Yes. Bidders received information from the competitive bidding process documents, the CBP website, FAQs posted to the CBP website, and a bidder webcast. Following the Commission Finding and Order regarding the RFP auction process for PIPP customers, bidders received updated documents, additional data, and additional FAQs.
4	Was the information generally provided to bidders in accordance with the published timetable? Was the timetable updated appropriately as needed?	Yes. No updates to the timetable were needed as bidders accepted the updated documents within the expected timeframe for the Part 2 Application.
5	Were there any issues and questions left unresolved prior to the auction that created material uncertainty for bidders?	No.
6	Were there any procedural problems or errors with the auction, including the electronic bidding process, the backup bidding process, and communications between bidders and the Auction Manager?	No.
7	Were protocols for communication between bidders and the Auction Manager adhered to?	Yes.

14	Were the protocols followed for decisions regarding changes in auction parameters (e.g., volume adjustments and price decrements)?	Yes. There were no volume adjustments. The Auction Manager exercised discretion in setting the decrement used to calculate the going price in round 13. The Auction Manager informed PUCO staff and the PUCO's consultant. Bidders were notified via system mail.
