COMMENT DESCRIPTION:

I am writing to strongly oppose the Duke Pipeline proposals that run through Blue Ash. They are along Reed Hartman in an area that is surrounded by residential properties on either side including my residential neighborhood of Sycamore Trace or run a block over in front of Blue Ash Elementary where our young children attend school. The pipeline should not be near these areas. Sycamore is one of the best school districts in Ohio - families move here for the schools. A pipeline here would not only be a safety threat, but has a great potential to hurt the education in

Subject: Opposing Duke Pipeline Proposal through Blue Ash

I am writing to strongly oppose the Duke Pipeline proposals that run through Blue Ash. They are along Reed Hartman in an area that is surrounded by residential properties including my residential neighborhood of Sycamore Trace or run a block over in front of Blue Ash Elementary, the sycamore school where my eldest son goes to school and where my younger one will one day attend. The pipeline should not be near these areas - we would literally be surrounded by a public safety threat and our children would be put in danger. Sycamore is one of the best school districts in Ohio - families move here for the schools. A pipeline here would not only be a safety threat, but has a great potential to hurt the education in our school district when families reconsider moving to Blue Ash.

In 1 month, Duke will narrow down their choice from 3 to 2 proposals. Please help ensure that Blue Ash is not being considered and please be a voice in pushing Duke to consider nonresidential route alternatives. Please help us put safety first.

Thank you so much for your time and consideration.

Best,  
Evelyn Wagner
