Dear Sir:

My wife and I are residents of Park Hills located in Evendale, Ohio. I understand that Duke Energy is proposing a natural gas line for the greater Cincinnati area. One of the routes under consideration would directly impact Park Hills, which includes our home. I question both the necessity of the new pipe line and the route proposed along Glendale Milford Road. The proposed route along Glendale Milford Road would cause the destruction and removal of trees that act as a buffer between Park Hills homes and Glendale Milford Rd. Besides losing privacy home owners will probably experience a loss of value in their property. Please reconsider the proposed route along Glendale Milford Rd.
