

BEFORE

THE PUBLIC UTILITIES COMMISSION OF OHIO

In the Matter of the Adoption of Electronic)
Data Interchange Standards and Uniform) Case No. [15-0630-EL-EDI](#)
Business Practices for the Electric)
Industry.)

**Resolution of the PUC Ohio EDI Working Group (OEWG)
April 14, 2015**

The Ohio EDI Working Group (OEWG) is comprised of Ohio's electric distribution utilities and certified retail electric suppliers, marketers, and other interested stakeholders. OEWG has developed uniform business practices and electronic data interchange (EDI) standards for the electric industry to allow customers to choose generation service from alternative suppliers in Ohio. The Commission adopted Ohio EDI Implementation Guideline transaction sets in Case No. [00-813-EL-EDI](#) in its [July 19, 2000 Finding and Order](#), at 17-18, and approved revisions to the Implementation Guidelines in Case Nos. [12-1770-EL-EDI](#) and [13-0002-EL-EDI](#).

The OEWG has established a change control process that is open to all market participants and accessible on the [OEWG page of the Commission's website](#). The change control process maintains current redline versions of the Ohio EDI Implementation Guidelines on the OEWG page. The OEWG has incorporated all approved changes from the 2013-2014 period into a new version of the EDI Implementation Guidelines to be submitted for Commission approval.

On March 31, 2015, the following EDI Implementation Guideline transaction sets were filed in the above-captioned case by Brandon Siegel, Co-Chair and Change Control Manager of the Ohio EDI Working Group (OEWG) to update Ohio's electric industry EDI documentation:

- 248 Write-off
- 810 LDC Invoice Bill Ready
- 810 LDC Invoice Rate Ready
- 814 Change Request and Response
- 814 Drop Request and Response
- 814 Enrollment Request and Response
- 814 Reinstatement Request and Response
- 820 Payment/Remittance
- 824 Application Advice
- 867 Usage

No objection to the adoption of the foregoing guidelines for use in Ohio, or change control process, has been made by any OEWG participant. Consequently, it is hereby resolved that the OEWG recommends that the Commission adopt the above-referenced EDI Implementation Guideline transaction sets and OEWG change control process for use in Ohio's retail electric market.

OEWG Participants
(4/19/2016 Meeting Roll Call)
