DIRECT TESTIMONY OF
DAVID R. GILL
IN SUPPORT OF AEP OHIO'S
AMENDED ELECTRIC SECURITY PLAN

Filed: May 13, 2016

INDEX TO DIRECT TESTIMONY OF DAVID R. GILL

| Personal Data | 1 |
|---|---|
| Purpose of Testimony | |
| Requested Rate Changes | |
| Continuation of Company Riders | |
| DIR Revenue Caps for Extended ESP Term | |
| Modifications to Company Riders | |
| Proposal of New Company Riders | 7 |
| Revenue Neutral Residential Rate Redesign | 8 |
| Implementation and Customer Bill Impacts | 9 |

BEFORE THE PUBLIC UTILITIES COMMISSION OF OHIO DIRECT TESTIMONY OF DAVID R. GILL ON BEHALF OF OHIO POWER COMPANY

1 PERSONAL DATA

- 2 Q. PLEASE STATE YOUR NAME AND BUSINESS ADDRESS.
- 3 A. My name is David R. Gill and my business address is 850 Tech Center Drive, Gahanna,
- 4 Ohio 43230.
- 5 Q. BY WHOM ARE YOU EMPLOYED AND WHAT IS YOUR POSITION?
- 6 A. I am employed by Ohio Power Company ("AEP Ohio" or the "Company") as a Senior
- 7 Regulatory Consultant.
- 8 Q. WOULD YOU PLEASE DESCRIBE YOUR EDUCATIONAL AND
- 9 **PROFESSIONAL BACKGROUND?**
- 10 A. I earned a Bachelor of Arts degree in mathematics from Otterbein University in 2010. I
- joined the AEP Ohio Regulatory Pricing and Analysis department in 2011 and have
- 12 progressed through various positions before being promoted to my current position of
- Senior Regulatory Consultant. My duties within the department have included preparing
- rider filings and rate designs, assisting financial audits of collection mechanisms, providing
- research in support of the discovery process, maintaining tariff books, as well as other
- projects related to regulatory issues and proceedings, individual customer requests and
- 17 complaints, and general rate matters.
- 18 Q. WHAT ARE YOUR RESPONSIBILITIES AS A SENIOR REGULATORY
- 19 **CONSULTANT?**

- 1 A. I am responsible for the preparation and presentation of regulatory and pricing matters to
- 2 management as well as regulatory bodies. I perform work activities to develop and support
- 3 pricing structures, rider and true-up filings, maintenance of tariffs, pilot programs, special
- 4 contracts, and other regulatory and pricing initiatives.

5 Q. HAVE YOU PREVIOUSLY TESTIFIED BEFORE THE COMMISSION?

- 6 A. Yes. I have testified before the Public Utilities Commission of Ohio (Commission) in Case
- 7 No. 15-1046-EL-USF.

15

8 **PURPOSE OF TESTIMONY**

9 Q. WHAT IS THE PURPOSE OF YOUR TESTIMONY?

- 10 A. The purpose of my testimony is to discuss certain features of AEP Ohio's Amended Electric
- 11 Security Plan (ESP III) filing. Specifically, I summarize AEP Ohio's requested rate
- changes; support the continuation of current riders, modifications to current riders, and the
- proposal of new riders; describe the required modifications to the Company's Tariffs; and
- provide the resulting rate impacts on AEP Ohio customers by rate zone.

Q. ARE YOU SPONSORING ANY EXHIBITS?

16 A. Yes. I am sponsoring the following exhibits:

| 17 | Exhibit DRG-1 | Summary of Riders |
|----|---------------|--|
| 18 | Exhibit DRG-2 | Summary of Proposed Amended ESP Rate Changes |
| 19 | Exhibit DRG-3 | Proposed Competition Incentive Rider |
| 20 | Exhibit DRG-4 | Proposed SSO Credit Rider |
| 21 | Exhibit DRG-5 | Revenue Neutral Residential Rate Redesign |
| 22 | Exhibit DRG-6 | SSO Customer Typical Bills |
| 23 | Exhibit DRG-7 | Redlined Tariffs |

REQUESTED RATE CHANGES

1

2 Q. HAVE YOU PREPARED A SUMMARY OF AEP OHIO'S REQUESTED RATE

3 CHANGES UNDER THE AMENDED ESP III?

- 4 A. Yes. Exhibit DRG-2 summarizes the impact of various components of AEP Ohio's request
- 5 based upon the information provided to me by Company witnesses. Because AEP Ohio's
- 6 actual rates that will be in effect prior to implementation are not known at this time, I have
- 7 used current rates to provide a comparison to the proposed Amended ESP rates.

8 CONTIUATION OF COMPANY RIDERS

9 Q. IS THE COMPANY REQUESTING THE CONTINUATION OF ANY RIDERS IN

10 **THE AMENDED ESP?**

- 11 A. Yes. The Company is requesting the continuation of all riders approved in the Company's
- ESP III, and, if applicable, as amended in the approved Stipulation in Case No. 14-1693-
- 13 EL-RDR ("PPA Stipulation").

14 <u>DIR REVENUE CAPS FOR EXTENDED ESP TERM</u>

15 Q. IS THE COMPANY PROPOSING THE CONTINUATION OF ANNUAL RATE

16 CAPS ON THE DISTRIBUTION INVESTMENT RIDER (DIR)?

- 17 A. Yes. Based on the level of investment as supported by Company witness Dias, the
- 18 Company is proposing a revenue cap on the DIR of \$227 million in 2018; \$261 million in
- 19 2019; \$290 million in 2020; \$318 million in 2021; \$344 million in 2022; \$370 million in
- 20 2023; and \$161 million for the first five months of 2024, or \$386.4 million on an annualized
- basis. These annual revenue caps are based on the existing DIR caps as of April 1, 2016. A
- subsequent Commission decision altering the caps for 2016 through May 2018 may require
- an update to the proposed DIR caps in this case to accommodate the level of investment

- supported by Company witness Dias. In addition, these annual revenue caps reflect the continuation of the current DIR function whereby any over- or under-collection of DIR revenue relative to the annual cap is applied to the annual cap in the subsequent year. Finally, the revenue caps are based on an assumption that the Company's base distribution rates are not updated to include distribution plant placed into service subsequent to August 31, 2010.
- 7 MODIFICATIONS TO COMPANY RIDERS
- 8 Q. IS THE COMPANY REQUESTING TO MODIFY ANY OF THE RIDERS
- 9 **CONTINUING IN THE AMENDED ESP?**
- 10 A. Yes. Consistent with the PPA Stipulation, the Company is proposing to modify and
- 11 continue the Interruptible Power Rider (IRP), the Basic Transmission Cost Rider (BTCR),
- the Energy Efficiency and Peak Demand Reduction Rider (EE/PDR), and the Economic
- Development Cost Recovery Rider (EDR). The Company is also proposing to modify and
- continue the Auction Cost Reconciliation Rider (ACRR).
- 15 Q. WHAT MODIFICATIONS TO THE INTERRUPTIBLE POWER RIDER (IRP) IS
- 16 THE COMPANY PROPOSING?
- A. Consistent with the PPA Stipulation, the Company is proposing to extend the IRP program
 for the current IRP customers as of May 13, 2016 as well as 250 MW of additional
 interruptible load. Eligibility for the 250 MW of additional interruptible load will be limited
 to members of the Signatory Parties to the stipulation in Case No. 14-1693-EL-RDR and to
 members of non-opposing parties in that same case, whether those members are shopping or
- not. 150 MW of the 250 MW of additional interruptible load will be reserved for new
- businesses locating in the Company's service territory. If 100 MW of additional

interruptible load subscribes to the IRP program by March 31, 2017, then the IRP program shall be increased by an additional 25 MW available to members of the Signatory Parties to the stipulation in Case No. 14-1693-EL-RDR. The IRP credit will remain at \$8.21 per kW of interruptible until June 1, 2018, when it will increase to \$9.00 per kW of interruptible load. To participate in the IRP Rider, the customer must register with PJM as a full, annual emergency or pre-emergency demand response resource with a 30-minute notification time and offer such capability into the PJM reliability pricing model auctions for the PJM planning/delivery year (June 1 through May 31). In addition, the customer shall agree to turn over to the Company PJM capacity auction revenue and emergency energy payments received from PJM. The Company will include the PJM revenue to offset the costs included in the Energy Efficiency and Peak Demand Reduction Rider (EE/PDR). Except as described above, the existing terms and conditions of the existing IRP Rider will continue as approved by the Commission.

Q. WHAT MODIFICATIONS TO THE BASIC TRANSMISSION COST RIDER (BTCR) IS THE COMPANY PROPOSING?

Consistent with the PPA Stipulation, the Company is proposing a modification to the BTCR to allow GS-3 and GS-4 customers with interval metering capability the opportunity to optin to a pilot mechanism that will bill their BTCR demand costs based on each customer's single annual transmission coincident peak demand. Customers electing to participate in the pilot mechanism must opt-in by December 1 of each year to participate for the following calendar year. Customers who opt-in will remain subject to the pilot mechanism for the entire calendar year.

1 Q. WHAT MODIFICATIONS TO THE ENERGY EFFICIENCY AND PEAK

- 2 DEMAND REDUCTION RIDER (EE/PDR) IS THE COMPANY PROPOSING?
- 3 A. As supported by Company witness Allen and consistent with the PPA Stipulation, the
- 4 Company is proposing a modification to the EE/PDR to remove half of the energy
- 5 efficiency costs for subtransmission and transmission voltage customers and include those
- 6 costs for recovery in the Economic Development Cost Recovery Rider (EDR). Likewise,
- 7 the Company is also proposing to remove half of the Interruptible (IRP) Demand Credit
- 8 costs from the EE/PDR and include those costs for recovery in the EDR.

9 Q. WHAT MODIFICATIONS TO THE ECONOMIC DEVELOPMENT COST

10 **RECOVERY RIDER (EDR) IS THE COMPANY PROPOSING?**

- 11 A. Consistent with the PPA Stipulation, the Company is proposing to recover the costs of the
- Automaker Credit Rider (ACR) through the EDR. In addition, as described above and
- supported by Company witness Allen, the Company is proposing to include for recovery in
- the EDR half of the energy efficiency costs for subtransmission and transmission voltage
- 15 customers as well as half of the costs of IRP Demand credits.

16 Q. WHAT MODIFICATIONS TO THE AUCTION COST RECONCILIATION RIDER

17 (ACRR) IS THE COMPANY PROPOSING?

- 18 A. As supported by Company witness Moore, the Company is proposing to include for
- recovery in the ACRR the cost of payments made to customers served under the Company's
- 20 Cogeneration Schedules. Currently, the Company is not recovering those costs through any
- 21 mechanism. Because very few customers are served under the Cogeneration Schedules and
- 22 future payments made to these customers are unknown, the Company has no basis to
- prepare an estimate of the potential change in ACRR rates.

PROPOSAL OF NEW COMPANY RIDERS

2 Q. IS THE COMPANY PROPOSING ANY NEW RIDERS?

- 3 A. Yes. Consistent with the PPA Stipulation, the Company is proposing to add the Automaker
- 4 Credit Rider (ACR), the Competition Incentive Rider (CIR), and the SSO Credit Rider
- 5 (SSOCR). In addition, the Company is proposing the County Fair Transmission
- 6 Supplement (CFTS), the Submetering Rider (SR), and the Generation Resource Rider
- 7 (GRR).

1

8 Q. PLEASE EXPLAIN THE AUTOMAKER CREDIT RIDER (ACR).

- 9 A. Consistent with the PPA Stipulation, the Automaker Credit Rider will support increased
- 10 utilization or expansion of automaker facilities in the Company's service territory. The
- 11 ACR will provide a \$10/MWh credit for all kWh consumption above the customer's
- baseline consumption. The baseline consumption will be established using the customer's
- calendar year 2009 annual usage. The total credits under the Rider for all customers
- 14 combined will not exceed \$500,000 annually. The Company will recover the credits issued
- under the ACR through the Economic Development Cost Recovery Rider (EDR).
- 16 Q. HOW WILL THE COMPANY CALCULATE THE COMPETITION INCENTIVE
- 17 **RIDER (CIR) RATE?**
- 18 A. An example of the CIR rate calculation is shown as Exhibit DRG-3.
- 19 Q. HOW WILL THE COMPANY CALCULATE THE SSO CREDIT RIDER (SSOCR)?
- 20 A. An example of the SSOCR rate calculation is shown as Exhibit DRG-4.
- 21 Q. PLEASE EXPLAIN THE COUNTY FAIR TRANSMISSION SUPPLEMENT
- 22 **(CFTS).**

- 1 A. The County Fair Transmission Supplement will classify General Service customers that are
- 2 county fairgrounds as part of the Non-Demand Metered class for purposes of the Basic
- 3 Transmission Cost Rider. The Company is proposing this supplement to provide rate relief
- 4 to county fair accounts, which are typically seasonal users of electricity who nonetheless
- 5 may be subject to year-round transmission costs as a function of the Minimum Billing
- 6 Demand provisions of the Company's Schedules.

7 Q. HOW WILL THE COMPANY CALCULATE THE SUBMETERING RIDER (SR)?

- 8 A. As supported by Company witness Moore, the Submetering Rider will serve as a
- 9 placeholder nonbypassable rider until the Commission approves costs to be recovered in a
- separate proceeding. Since the timing and outcome of any such separate proceeding is
- unknown, the Company has no basis to prepare an estimate of the potential SR rates.

12 Q. HOW WILL THE COMPANY CALCULATE THE GENERATION RESOURCE

13 **RIDER (GRR)?**

18

- 14 A. As supported by Company witness Moore, the Generation Resource Rider will serve as a
- placeholder nonbypassable rider until the Commission approves costs to be recovered in a
- separate proceeding. Since the timing and outcome of any such separate proceeding is
- unknown, the Company has no basis to prepare an estimate of the potential GRR rates.

REVENUE NEUTRAL RESIDENTIAL RATE REDESIGN

19 Q. HOW WILL THE COMPANY CALCULATE THE REVENUE NEUTRAL

- 20 **RESIDENTIAL RATE REDESIGN?**
- 21 A. As supported by Company witness Moore, the Company will calculate the revenue neutral
- residential rate redesign in the same manner it used to calculate the rate redesign to comply
- with the Commission order in Case No. 11-351-EL-AIR. The increased customer charge

- will be offset by a decreased distribution energy charge. The decreased distribution energy
- 2 charge will decrease the Energy Revenue Target used in the calculation of the Pilot
- 3 Throughput Balancing Adjustment Rider (PTBAR). The revenue neutral residential rate
- 4 redesign calculations are shown as Exhibit DRG-5.

5 IMPLEMENTATION AND CUSTOMER BILL IMPACTS

6 Q. WHEN WILL AEP OHIO FILE AND IMPLEMENT THE PROPOSED ESP

7 EXTENSION RATES?

- 8 A. Upon approval of the proposed extended ESP by the Commission, AEP Ohio will file
- 9 compliance tariffs to be effective for bills rendered beginning with the first billing cycle of
- the month subsequent to the approval. A redline of the Standard and Open Access
- Distribution tariffs, excluding the Terms and Conditions of Service, is provided in Exhibit
- DRG-7. A redline of the Terms and Conditions of Service is provided in the testimony of
- 13 Company witness Gabbard.

14 Q. WHAT IMPACT WILL AEP OHIO'S ESP EXTENSION HAVE ON CUSTOMERS'

15 **TOTAL BILLS?**

- 16 A. Upon implementation, Residential customers using 1,000 kWh of electricity per month will
- see an estimated monthly rate decrease of \$2.07 for both Columbus Southern Power Rate
- Zone and Ohio Power Rate Zone customers. The following table illustrates the rate changes
- for select residential, commercial, and industrial customers. The Current column reflects
- rates as of April 1, 2016. The Proposed column reflects the estimated rates in June 2017.

| Columbus So | uthern Powe | r Rate Zone | | | | |
|---|-------------------|-------------|--------|-------------------|--|--|
| | SSO Monthly Bills | | | | | |
| Household | Current | Proposed | Change | <u>Tariff</u> | | |
| 1,000 kWh usage | \$135 | \$133 | -1.5% | R-R Bill | | |
| 2,000 kWh usage | \$257 | \$244 | -5.0% | R-R Bill | | |
| 4,000 kWh usage | \$501 | \$466 | -6.9% | R-R Bill | | |
| Small Business | | | | | | |
| 1,000 kW demand and 100,000 kWh usage | \$15,323 | \$15,165 | -1.0% | GS-2 Primary | | |
| 1,000 kW demand and 350,000 kWh usage | \$33,082 | \$31,577 | -4.5% | GS-3 Primary | | |
| Industrial Business | | | | | | |
| 20,000 kW demand and 8 million kWh usage | \$537,133 | \$508,343 | -5.4% | GS-4 | | |
| 20,000 kW demand and 12 million kWh usage | \$765,255 | \$725,901 | -5.1% | GS-4 | | |
| Ohio F | Power Rate Z | one | | | | |
| | SS | O Monthly B | ills | | | |
| Household | Current | Proposed | Change | <u>Tariff</u> | | |
| 1,000 kWh usage | \$140 | \$138 | -1.5% | RS Bill | | |
| 2,000 kWh usage | \$267 | \$255 | -4.8% | RS Bill | | |
| 4,000 kWh usage | \$521 | \$487 | -6.6% | RS Bill | | |
| Small Business | | | | | | |
| 1,000 kW demand and 100,000 kWh usage | \$16,645 | \$16,560 | -0.5% | GS-2 Primary | | |
| 1,000 kW demand and 300,000 kWh usage | \$31,875 | \$30,753 | -3.5% | GS-2 Primary | | |
| Industrial Business | | | | | | |
| 20,000 kW demand and 8 million kWh usage | \$569,230 | \$540,368 | -5.1% | GS-4 Transmission | | |
| 20,000 kW demand and 12 million kWh usage | \$813,269 | \$773,843 | -4.8% | GS-4 Transmission | | |

- In addition, Exhibit DRG-6 shows the rate changes for SSO customers at various "typical"
- 2 usage levels for each major tariff schedule.

Q. DOES THIS CONCLUDE YOUR PRE-FILED DIRECT TESTIMONY?

4 A. Yes.

P.U.C.O. NO. 20

SCHEDULE RS (Residential Service)

Availability of Service

Available for residential service through one meter to individual residential customers.

Monthly Rate (Schedule Codes 001, 003, 004, 005, 007, 008, 015, 017, 022, 038, 062)

| | Distribution |
|-----------------------------------|------------------------|
| Customer Charge (\$) | 8.40 13.40 |
| Monthly Energy Charge (¢ per KWH) | 1.82747 1.3 |
| | 4246 |

Storage Water Heating Provision

Availability of this provision is limited to those customers served under this provision as of December 31, 2000.

If the customer installs a Company approved storage water heating system which consumes electrical energy only during off-peak hours as specified by the Company and stores hot water for use during on-peak hours, the following shall apply:

- (a) For minimum capacity of 80 gallons, the last 250 KWH of use in any month shall be billed at the storage water heating energy charge (Schedule Code 012).
- (b) For minimum capacity of 100 gallons, the last 350 KWH of use in any month shall be billed at the storage water heating energy charge. (Schedule Code 013)
- (c) For minimum capacity of 120 gallons or greater, the last 450 KWH of use in any month shall be billed at the storage water heating energy charge. (Schedule Code 014)

| | Distribution |
|-------------------------------------|------------------------|
| Storage Water Heating Energy Charge | |
| (¢ per KWH) | 1.82747 1.3 |
| | <u>4246</u> |

Filed pursuant to Order dated February 25, 2015 in Case No. 13-2385-EL-SSO

These provisions, however, shall in no event apply to the first 200 KWH used in any month, which shall be billed in accordance with the Monthly Rate as set forth above.

For the purpose of this provision, the on-peak billing period is defined as 7 a.m. to 9 p.m. local time for all weekdays, Monday through Friday. The off-peak billing period is defined as 9 p.m. to 7 a.m. for all weekdays, all hours of the day on Saturdays and Sundays, and the legal holidays of New Year's Day, Presidents' Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day.

| Issued: April 24, 2015 | Effective: June 1, 2015 |

P.U.C.O. NO. 20

SCHEDULE RS (Residential Service)

Storage Water Heating Provision (Cont'd)

The Company reserves the right to inspect at all reasonable times the storage water heating system and devices which qualify the residence for service under the Storage Water Heating Provision, and to ascertain by any reasonable means that the time-differentiated load characteristics of such devices meet the Company's specifications. If the Company finds that, in its sole judgment, the availability conditions of this provision are being violated, it may discontinue billing the customer under this provision and commence billing under the standard monthly rate.

<u>Load Management Water Heating Provision</u> (Schedule Code 011)

Availability of this provision is limited to those customers served under this provision as of December 31, 2000.

For residential customers who install a Company approved load management water heating system which consumes electrical energy primarily during off-peak hours specified by the Company and stores hot water for use during on-peak hours, of minimum capacity of 80 gallons, the last 250 KWH of use in any month shall be billed at the load management water heating energy charge.

| | Distribution |
|--------------------------------------|-------------------------------|
| Load Management Water Heating Energy | |
| Charge (¢ per KWH) | 1.82747 <u>1.3</u> |
| | <u>4246</u> |

This provision, however, shall in no event apply to the first 200 KWH used in any month, which shall be billed in accordance with the "Monthly Rate" as set forth above.

For the purpose of this provision, the on-peak billing period is defined as 7 a.m. to 9 p.m. local time for all weekdays, Monday through Friday. The off-peak billing period is defined as 9 p.m. to 7 a.m. for all weekdays, all hours of the day on Saturdays and Sundays, and the legal holidays of New Year's Day, Presidents' Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day.

The Company reserves the right to inspect at all reasonable times the load management storage water heating system and devices which qualify the residence for service under the Load Management Water Heating Provision, and to ascertain by any reasonable means that the time-differentiated load characteristics of such devices meet the Company's specifications. If the Company finds that, in its sole judgment, the availability conditions of this provision are being violated, it may discontinue billing the customer under this provision and commence billing under the standard monthly rate.

Minimum Charge

The minimum monthly charge under this schedule shall be the sum of the customer charge and all applicable riders.

SCHEDULE RS (Residential Service)

Payment

Bills are due and payable in full by mail, checkless payment plan, electronic payment plan or at an authorized payment agent of the Company within 15 days after the mailing of the bill.

Applicable Riders

Monthly Charges computed under this schedule shall be adjusted in accordance with the Commission-approved riders on Sheet Number 104-1.

Term of Contract

A written agreement may, at the Company's option, be required.

Special Terms and Conditions

This schedule is subject to the Company's Terms and Conditions of Service.

This schedule is available to customers engaged in agricultural enterprises where service is taken through 1 meter for that customer's primary residence, and not more than 100 KW of connected electrical load is outside the residence. This schedule is not extended to operations of a commercial nature or operations such as processing, preparing, or distributing products not raised or produced on the farm, unless such operation is incidental to the usual residential and farm uses.

This schedule is intended for single-phase service. Where the residential customer requests 3-phase service, this schedule will apply if the customer pays to the Company the difference between constructing single-phase and 3-phase service. Where motors or heating equipment are used for commercial or industrial purposes, the applicable general service schedule will apply to such service.

Customers with cogeneration and/or small power production facilities which qualify under Section 210 of the Public Utility Regulatory Policies Act of 1978 shall take service under Schedule COGEN/SPP, Schedule NEMS, or by special agreement with the Company. All other customers having sources of electrical energy supply other than the Company shall take service under the applicable Residential Schedule or Schedule NEMS.

For customers with cogeneration and/or small power production facilities which do not qualify for service under Schedule COGEN/SPP or Schedule NEMS, detents shall be used on the necessary metering to prevent reverse rotation. At its discretion, the Company may require that Company-owned metering be installed to monitor the customer's generation. The Company reserves the right to inspect the customer's relays and protective equipment at all reasonable times.

SCHEDULE RS-ES (Residential Energy Storage)

Availability of Service

Available to residential customers who use energy storage devices with time-differentiated load characteristics approved by the Company, such as electric thermal storage space heating and/or cooling systems and water heaters which consume electrical energy only during off-peak hours specified by the Company and store energy for use during on-peak hours.

Households eligible to be served under this schedule shall be metered through one single-phase multiple-register meter capable of measuring electrical energy consumption during the on-peak and off-peak billing periods.

Monthly Rate (Schedule Code 032)

| | Distribution |
|-----------------------------------|-------------------------------|
| Customer Charge (\$) | 9.25 14.25 |
| Monthly Energy Charge (¢ per KWH) | 1.82747 <u>1.3</u> |
| | 4246 |

Minimum Charge

The minimum monthly charge under this schedule shall be the sum of the customer charge and all applicable riders.

Separate Metering

Customers shall have the option of receiving service under Schedule RS for their general-use load by separately wiring such load to a standard residential meter. The distribution service charge for the separate meter shall be \$1.05 per customer per month.

Payment

Bills are due and payable in full by mail, checkless payment plan, electronic payment plan or at an authorized payment agent of the Company within 15 days after the mailing of the bill.

Applicable Riders

Monthly Charges computed under this schedule shall be adjusted in accordance with the Commission-approved riders on Sheet Number 104-1.

Term of Contract

A written agreement may, at the Company's option, be required.

SCHEDULE RS-ES (Residential Energy Storage)

Special Terms and Conditions

This schedule is subject to the Company's Terms and Conditions of Service.

The Company reserves the right to inspect at all reasonable times the energy storage devices which qualify the residence for service and for conservation and load management credits under this schedule, and to ascertain by any reasonable means that the time-differentiated load characteristics of such devices meet the Company's specifications. If the Company finds that, in its sole judgment, the availability conditions of this schedule are being violated, it may discontinue billing the customer under this schedule and commence billing under the appropriate residential service schedule.

This schedule is available to customers engaged in agricultural enterprises where service is taken through 1 meter for that customer's primary residence, and not more than 100 KW of connected electrical load is outside the residence. This schedule is not extended to operations of a commercial nature or operations such as processing, preparing, or distributing products not raised or produced on the farm, unless such operation is incidental to the usual residential and farm uses.

This schedule is intended for single-phase service. Where the residential customer requests 3-phase service, this schedule will apply if the customer pays to the Company the difference between constructing single-phase and 3-phase service. Where motors or heating equipment are used for commercial or industrial purposes, the applicable general service schedule will apply to such service.

Customers with cogeneration and/or small power production facilities which qualify under Section 210 of the Public Utility Regulatory Policies Act of 1978 shall take service under Schedule COGEN/SPP, Schedule NEMS, or by special agreement with the Company. All other customers having sources of electrical energy supply other than the Company shall take service under the applicable Residential Schedule or Schedule NEMS.

For customers with cogeneration and/or small power production facilities which do not qualify for service under Schedule COGEN/SPP or Schedule NEMS, detents shall be used on the necessary metering to prevent reverse rotation. At its discretion, the Company may require that Company-owned metering be installed to monitor the customer's generation. The Company reserves the right to inspect the customer's relays and protective equipment at all reasonable times.

SCHEDULE RLM (Residential Optional Demand Service)

hours of the day on Saturdays and Sundays, and the legal holidays of New Year's Day, Presidents Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day.

The Company reserves the right to inspect at all reasonable times the storage water heating system and devices which qualify the residence for service under the Storage Water Heater Provision, and to ascertain by any reasonable means that the time-differentiated load characteristics of such devices meet the Company's specifications. If the Company finds that in its sole judgment the availability conditions of this schedule are being violated, it may discontinue billing the customer under this provision and commence billing under the standard monthly rate.

This provision is subject to the Customer Charge as stated in the above monthly rate.

Load Management Water Heating Provision (Schedule Code 027)

Availability of this provision is limited to those customers served under this provision as of December 31, 2000.

For residential customers who install a Company-approved load management water heating system which consumes electrical energy primarily during off-peak hours specified by the Company and stores hot water for use during on-peak hours, of minimum capacity of 80 gallons, the last 250 KWH of use in any month shall be billed at the load management water heating energy charge.

| | Distribution |
|--|---------------------------------------|
| Load Management Water Heating Energy Charge (¢ per KWH) | 1.82747 <u>1.3</u> 4246 |
| | 4246 |

This provision, however, shall in no event apply to the first 200 KWH used in any month, which shall be billed in accordance with the "Monthly Rate" as set forth above.

For purpose of this provision, the on-peak billing period is defined as 7 a.m. to 9 p.m. local time for all weekdays, Monday through Friday. The off-peak billing period is defined as 9 p.m. to 7 a.m. for all weekdays, all hours of the day on Saturdays and Sundays, and the legal holidays of New Year's Day, Presidents Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day.

The Company reserves the right to inspect at all reasonable times the load management storage water heating system and devices which qualify the residence for service under the load management water heating provision, and to ascertain by any reasonable means that the time-differentiated load characteristics of such devices meet the Company's specifications. If the Company finds that in, its sole judgment, the availability conditions of this schedule are being violated, it may discontinue billing the customer under this provision and commence billing under the standard monthly rate.

Payment

Bills are due and payable in full by mail, checkless payment plan, electronic payment plan or at an authorized payment agent of the Company within 15 days after the mailing of the bill.

| Filed pursuant to Order dated February 25, 2015 | in Case No. 13-2385-EL-SSO |

6th-7th Revised Sheet No. 312-3 Cancels 5th-6th Revised Sheet No. 312-3

P.U.C.O. NO. 20

SCHEDULE RLM (Residential Optional Demand Service)

Applicable Riders

Monthly Charges computed under this schedule shall be adjusted in accordance with the Commission-approved riders on Sheet No. 104-1.

Determination of Billing Demand

The billing demand shall be the maximum 30-minute integrated kilowatt demand recording of an integrating demand meter during the current billing period.

Term of Contract

The term of contract shall be an initial period of four years under the Rural Line Extension Plan, but in no case shall the contract term be less than one year.

Special Term and Conditions

This schedule is subject to the Company's Terms and Conditions of Service.

This schedule is available to customers engaged in agricultural enterprises where service is taken through one (1) meter for that customer's primary residence, and not more than 100 kW of connected electrical load outside the residence. This schedule is not extended to operation of a commercial nature or operations such as processing, preparing or distributing products not raised or produced on the farm, unless such operation is incidental to the usual residential and farm uses.

This schedule is intended for single phase service. Where the residential customer requests three-phase service, this schedule will apply if the residential customer pays to the Company the difference between constructing single-phase service and three-phase service. Where motors or heating equipment are used for commercial or industrial purposes, the applicable general service schedule will apply to such service.

Customers with cogeneration and/or small power production facilities which qualify under Section 210 of the Public Utility Regulatory Policies Act of 1978 shall take service under Schedule COGEN/SPP, Schedule NEMS, or by special agreement with the Company. All other customers having sources of electrical energy supply other than the Company shall take service under the applicable Residential Schedule or Schedule NEMS.

For customers with cogeneration and/or small power production facilities which do not qualify for service under Schedule COGEN/SPP or Schedule NEMS, detents shall be used on the necessary metering to prevent reverse rotation. At its discretion, the Company may require that Company-owned metering be installed to monitor the customer's generation. The Company reserves the right to inspect the customer's relays and protective equipment at all reasonable times.

P.U.C.O. NO. 20

SCHEDULE RS-ES (Residential Energy Storage)

Availability of Service

Available for residential customers who use energy storage devices with time-differentiated load characteristics approved by the Company, such as electric thermal storage space heating and/or cooling equipment and water heaters which consume electrical energy only during off-peak hours specified by the Company and store energy for use during on-peak hours.

Households eligible to be served under this schedule shall be metered through one single-phase multiple-register meter capable of measuring electrical energy consumption during the on-peak and off-peak billing periods.

Monthly Rate (Schedule Code 032)

| | Distribution |
|-----------------------------------|------------------------|
| Customer Charge (\$) | 9.25 14.25 |
| Monthly Energy Charge (¢ per KWH) | 1.82747 1.3 |
| | 4246 |

Minimum Charge

The minimum monthly charge under this schedule shall be the Customer Charge.

Separate Metering Provision

Customers shall have the option of receiving service under Schedule R-R or Schedule R-R-1 for their general-use load by separately wiring this equipment to a standard residential meter.

Payment

Bills are due and payable in full by mail, checkless payment plan, electronic payment plan or at an authorized payment agent of the Company within 15 days after the mailing of the bill.

Applicable Riders

Monthly Charges computed under this schedule shall be adjusted in accordance with the Commission-approved riders on Sheet Number 104-1.

Term of Contract

A written agreement may, at the Company's option, be required.

P.U.C.O. NO. 20

SCHEDULE RS-ES (Residential Energy Storage)

Special Terms and Conditions

This schedule is subject to the Company's Terms and Conditions of Service.

The Company reserves the right to inspect at all reasonable times the energy storage and load management devices which qualify the residence for service and for conservation and load management credits under this schedule, and to ascertain by any reasonable means that the time-differentiated load characteristics of such devices meet the Company's specifications. If the Company finds that, in its sole judgment, the availability conditions of this schedule are being violated, it may discontinue billing the customer under this schedule and commence billing under the appropriate residential schedule.

This schedule is available to customers engaged in agricultural enterprises where service is taken through 1 meter for that customer's primary residence, and not more than 100 KW of connected electrical load is outside the residence. This schedule is not extended to operations of a commercial nature or operations such as processing, preparing, or distributing products not raised or produced on the farm, unless such operation is incidental to the usual residential and farm uses.

This schedule is intended for single phase service. Where the residential customer requests three-phase service, this schedule will apply if the residential customer pays to the Company the difference between constructing single-phase service and three-phase service. Where motors or heating equipment are used for commercial or industrial purposes, the applicable general service schedule will apply to such service.

Customers with cogeneration and/or small power production facilities which qualify under Section 210 of the Public Utility Regulatory Policies Act of 1978 shall take service under Schedule COGEN/SPP, Schedule NEMS, or by special agreement with the Company. All other customers having sources of electrical energy supply other than the Company shall take service under the applicable Residential Schedule or Schedule NEMS.

For customers with cogeneration and/or small power production facilities which do not qualify for service under Schedule COGEN/SPP or Schedule NEMS, detents shall be used on the necessary metering to prevent reverse rotation. At its discretion, the Company may require that Company-owned metering be installed to monitor the customer's generation. The Company reserves the right to inspect the customer's relays and protective equipment at all reasonable times.

P.U.C.O. NO. 20

RIDER IRP-DINTERRUPTIBLE POWER RIDER (Interruptible Power - Discretionary)

Availability of Service

Service pursuant to this rider is <u>limited to members of the signatory and non-opposing parties to the stipulation filed and approved in Case No. 14-1693-EL-RDR and new businesses locating in the <u>service territory of AEP Ohio available to customers</u> that have provided reasonable evidence to the Company that their electric service can be interrupted within a 10-minute notice period. Customers shall contract for electrical capacity sufficient to meet normal maximum requirements <u>but not less than 1,000 KW of interruptible capacity</u>.</u>

The total interruptible power contract capacity for all customers served under this rider, <u>is 250,000 kW</u>. The total interruptible power contract capacity for new businesses is limited to 150,000 kW. These amounts shall not include the contract capacity of the customers receiving the interruptible credit as of May 13, 2016. If 100,000kW of the member contract capacity load cap is subscribed to by March 31, 2017, an additional 25,000 kW of interruptible contract capacity shall be made available to members of the signatory parties contracts and agreements offered by the Company will be limited to 75,000 kW in the Columbus Southern Power Rate Zone and 450,000 kW in the Ohio Power Rate Zone. Loads of new customers locating within the Company's service area or load expansions by existing customers may be offered interruptible service as part of an economic development or competitive response incentive. Such interruptible service shall not be counted toward the limitation on total interruptible power contract capacity, as specified above, and will not result in a change to the limitation on total interruptible power contract capacity.

Although the customer may receive interruption notifications either directly from PJM or from their third-party curtailment service provider, Tthe Company will communicates interruption information to the customer, monitors customer load and receives customer replacement electricity decisions through its Customer Communications System or a successor system. All costs associated with providing the initial, required Customer Communications System will be borne by the customer.

Enrollment, Registration and Participation in PJM Demand Response Programs

To participate in this rider, the customer must register with PJM as a full, annual emergency or preemergency demand response resource with a 30-minute notification time and offer such capability into the PJM reliability pricing model auctions for the PJM planning/delivery year (June 1 through May 31).

Participation in this rider does not preclude the customer from also participating in other PJM demand response programs, such as the economic and ancillary service programs.

Interruption Conditions

The Company reserves the right to interrupt, in its sole discretion, service under this rider at any time to comply with PJM requirements for full, annual emergency demand response resources. Such interruptions shall be designated as Discretionary Interruptions and shall not exceed 200 hours of interruption during any year. For the purposes of this provision, a year shall be defined as a consecutive twelve (12) month period commencing on May 1 and ending on April 30. Discretionary Interruptions will be called simultaneously for all customers served under this rider.

P.U.C.O. NO. 20

RIDER IRP-DINTERRUPTIBLE POWER RIDER (Interruptible Power - Discretionary)

Interruption Conditions (Cont'd)

5. During the calendar months of December, January and February, there shall not be more than two (2) Discretionary Interruption events per day. Any such Discretionary Interruption events shall be separated by not less than three (3) consecutive hours without Discretionary Interruption.

Emergency Interruptions pursuant to the AEP Emergency Operating Plan, for system integrity purposes or for emergency sales to other utilities, shall not count toward the total hours of interruption specified above or toward the five (5) limits specified above.

Interruption Notice

The Company will endeavor to provide the customer as much advance notice as possible of a Discretionary Interruption. Such notice shall specify the starting and ending hour of the Discretionary Interruption. Discretionary Interruptions shall begin and end on the clock hour. The Company shall provide notice to the customer a minimum of 100 minutes prior to the commencement of a Discretionary Interruption. After such notice, the customer will be required to interrupt service within 100 minutes if so requested by the Company. In emergency situations, the customer will be required to interrupt service immediately.

Failure to Comply With A Request For Interruption

- 1. If the customer fails to interrupt load as requested by the Company for a Discretionary Interruption, the customer will be required to pay for the entire uninterrupted energy for the duration of the Discretionary Interruption at two (2) times the Replacement Electricity price offered by the Company. The uninterrupted energy will be calculated for each 30-minute period during the Discretionary Interruption as one half of the difference between the 30-minute integrated demand and the sum of the customer's contract capacities under any schedule where service is not interrupted.
- 2. If the customer fails to interrupt load in accordance with this rider, as requested by the Company for an Emergency Interruption, the customer will be required to refund all rate discounts received under this rider during the preceding 12 months for the uninterrupted demand. The uninterrupted demand will be calculated as the difference between the maximum 30-minute integrated demand during each Emergency Interruption and the sum of the customer's contract capacities under any schedule where service is not interrupted. The rate discount will be the demand credit as specified in this rider.
- 3. If the customer fails to interrupt load as requested by the Company during an Emergency Interruption, the Company further reserves the right to:
 - a) Interrupt the customer's entire load.

P.U.C.O. NO. 20

RIDER IRP-D (Interruptible Power - Discretionary)

Failure to Comply With A Request For Interruption (Cont'd)

b) Discontinue service to the customer under this rider if the customer fails to interrupt load twice during any 12-month period as requested by the Company. The Company may thereafter charge the customer, as specified in the Term of Contract provision of this rider, for any additional costs beyond the firm service rate incurred by the Company as a result of the customer transferring to firm service without providing proper notice.

Term of Contract

The customer shall contract for capacity sufficient to meet normal maximum power requirements under the applicable standard service rate schedule. In no event will the amount of interruptible capacity contracted for be less than 1,000 KW at any delivery point. The Company will not be required to supply capacity in excess of that contracted for except by mutual agreement. In the absence of such agreement, if the customer's demand exceeds the contract capacity, the Company may promptly notify the customer to reduce demand and may interrupt the service if such reduction is not accomplished.

Contracts under this rider shall be made for an initial period of not less than 2 years and shall remain in effect unless either party shall give at least 1-year's written notice to the other of the intention to discontinue service from the Company. for a period of not less than one (1) PJM delivery year (June 1 through May 31) and shall remain in effect unless either party shall give at least 1-year's written notice to the other of the intention to discontinue service from the Company.

A new initial contract period will not be required for existing customers who increase their contract capacity requirements after the original notice period unless new or additional facilities are required, in which case, the Company may, at its option, require a longer initial contract period.

While the customer will be required to provide at least 1-year's notice to discontinue service from the Company, the customer will be required to provide 5-year's notice prior to transferring to firm service. Concurrent with providing the Company with notice to transfer to firm service, the customer will also be required to enter into a firm service contract or agreement that will become effective at the end of the notice period.

The customer may transfer to firm service with less than 5-year's notice, upon mutual agreement between the customer and the Company, subject to the following conditions:

- 1. If the Company has sufficient capacity to provide the customer firm service and would incur no additional costs beyond the firm service rate until after the 5-year contract notice requirement is fulfilled, the customer will be billed under the applicable firm service schedule.
- 2. If the Company has insufficient capacity to provide the customer firm service prior to the expiration of the notice period, the customer will be billed under the applicable firm service schedule plus all additional costs incurred by the Company in obtaining power from alternative electricity suppliers in order to provide firm service to the customer.

P.U.C.O. NO. 20

RIDER IRP-D (Interruptible Power - Discretionary)

Firm Service Designation

The customer must designate a firm service contract capacity for such service.

Replacement Electricity

When a Discretionary Interruption is called pursuant to the Interruption Conditions provision contained herein, and if requested by the customer, the Company will use its best efforts to supply replacement electricity in order for the customer to avoid an interruption. The customer will be required to specify an hourly KW capacity, in multiples of 1,000 KW, of such replacement electricity 65 minutes in advance of the commencement of each hour of the Discretionary Interruption.

The purchase and delivery of such replacement electricity will be subject to the following terms and conditions of service:

- 1. The customer agrees to pay the price offered by the Company. Such price shall be provided by the Company 100 minutes in advance of the commencement of each hour of the Discretionary Interruption.
- 2. Best efforts shall mean actions of the Company that are reasonable, prudent and consistent with good utility practice. Best efforts do not include fiduciary or extraordinary actions.
- 3. Once replacement electricity is being supplied to the customer, if the customer is notified that replacement electricity is no longer available, the terms of this provision will cease to apply and the customer must comply with all other provisions of this rider regarding interruption.
- 4. If any replacement electricity source fails to deliver scheduled replacement electricity, the Company reserves the right to interrupt service to the customer. Further, the customer will indemnify and hold the Company harmless for any damages to persons or property occurring at the customer's premises resulting from the interruption of the customer when the replacement electricity source fails to deliver replacement electricity as scheduled.
- 5. The Company reserves the right to interrupt the sale of replacement electricity to the customer if, in the sole judgement of the Company, such electricity is required to maintain service to the Company's customers with a higher priority of service according to the AEP Emergency Operating Plan, for system integrity purposes or for emergency sales to other utilities. Any such interruption shall be remedied as quickly as reasonably possible and must be preceded by the exhaustion of other reasonable alternatives consistent with good utility practice to avoid the interruption.
- 6. All costs of any metering, communications and other equipment necessary for providing replacement electricity will be borne by the customer. Such costs will include the costs of any equipment required to verify the scheduled delivery of replacement electricity from a replacement electricity source to the Company.

| AEP Ohio | | |

P.U.C.O. NO. 20

RIDER IRP-D (Interruptible Power - Discretionary)

7. The customer will be responsible for all costs resulting when the demand exceeds the replacement electricity capacity specified by the customer. The Company will compensate the customer for replacement electricity available for, but not used by the customer at a rate of 2.5¢ per KWH, except when the unused replacement electricity causes additional costs to the Company by creating operating instability on the Company's system. If the unused replacement electricity causes additional costs due to system instability, the Company shall notify the customer as soon as possible so the customer can take appropriate action to prevent incurring further costs.

Monthly Rate

In addition to the monthly charges for service under the applicable standard service rate schedule under which the customer receives service, the customer shall receive a Demand Credit for monthly interruptible demand as follows:

Generation Demand Credit (\$ per kKW)

| Delivery Voltage | OPCO | CSP |
|---------------------------|-------------------|---------------------------------|
| | Rate Zone | Rate Zone |
| | Prior to | June 2018 |
| | June 2018 | <u>– Мау</u> |
| | | <u>2024</u> |
| SecondaryAll participants | (8.21) | (8.21 <u>9.00</u>) |
| Primary | (8.21) | (8.21) |
| Subtransmission | (8.21) | (8.21) |
| Transmission | (8.21) | (8.21) |

The Demand Credit shall apply to the customer's monthly interruptible demand. Monthly interruptible demand shall be the difference between the monthly billing demand determined in accordance with the standard service rate schedule under which the customer receives service and the customer designated firm service contract capacity. In no event shall the customer's monthly interruptible demand be greater than the customer's interruptible service contract capacity.

Since the customer will be compensated by PJM, the customer shall agree to turn over to the Company PJM capacity auction revenue and emergency energy payments received by PJM.

Special Terms and Conditions

By participating in this rider, the customer is agreeing to commit its demand response capabilities hereunder to the Company for integration in the Company's energy efficiency and peak demand reduction programs. In delivery years when there are no emergency or pre-emergency events, the customer agrees to provide the Company the results of any interruption tests performed in accordance with the PJM tariff as evidence of the customer's ability to interrupt. Failure to provide this testing information or failure to adequately perform during such a test shall be considered a failure to interrupt under this rider.

COUNTY FAIR TRANSMISSION SUPPLEMENT (Transmission Rider Classification for County Fair Accounts)

| Avai | la | hi | lit۱ | , |
|------|----|----------|------|---|
| Ava | ıu | <u> </u> | 111 | L |

This Supplement shall apply to county fairs. It shall not be available to any customer receiving service pursuant to the terms of a special contract.

Account Classification for Basic Transmission Cost Rider

<u>For purposes of the Basic Transmission Cost Rider, accounts receiving service under this rider shall be billed the Non Demand Metered class rate per kWh.</u>

| Filed pursuant to Order dated | in Case No. 13-2385-EL-SSO | |

AUTOMAKER CREDIT RIDER

| Avai | ila | bi | lity |
|------|-----|----|------|
| | | | |

This rider is available to customers utilizing or expanding automaker facilities. For purposes of this rider, "automaker" shall refer to a company that manufactures automobiles.

Eligible customers must contact the Company to participate in this rider. Eligible customers that elect to participate will remain subject to this rider until providing the Company with notice of termination of participation.

Monthly Rate

In addition to the monthly charges for service under the applicable standard service rate schedule under which the customer receives service, the customer shall receive an Energy Credit of \$0.01 per kWh for all monthly kWh consumption above the customer's monthly baseline consumption, subject to the Rider Annual Cap. Monthly charges for all kWh consumption at or below the customer's monthly baseline consumption shall be priced according to the customer's standard service rate schedule.

Baseline Consumption

A customer's monthly baseline consumption shall be equal to one-twelfth of the customer's calendar year 2009 annual usage.

Rider Annual Cap

Total credits under this rider for all customers combined shall not exceed \$500,000 in any calendar year. In the event that one or more monthly customer bills contain kWh consumption which would cause the total calendar year credits under this rider to exceed the Annual Cap, the Company will divide the remaining credits under the Annual Cap equally among eligible customer bills for that month.

Special Terms and Conditions

This rider is subject to the Company's Terms and Conditions of Service and all provisions of the rate schedule under which the customer takes service.

RENEWABLE ENERGY TECHNOLOGY PROGRAM RIDER

Availability of Service

Available to customers taking electric service under the Company's standard service or open access distribution schedules that install a solar photovoltaic or wind energy system after July 1, 2011 and before June 30, 2013. Such systems must be located in the Company's service territory and have been certified as an Ohio Renewable Energy Resource Generating Facility by the Public Utilities Commission of Ohio.

This Rider shall remain in effect until June 30, 2013, while agreements entered into under the program will extend beyond the effective period of the Rider.

Definitions

"Solar Photovoltaic" means energy from devices which generate electricity directly from sunlight through the movement of electrons.

"Wind Energy" means electricity generated from wind turbines, windmills, or other technology that converts wind into electricity.

"Renewable Energy Certificate" ("REC") means a tradable unit that represents the commodity formed by unbundling the environmental attributes of a unit of renewable energy from the underlying electricity. One REC would be equivalent to the environmental attributes of one MWH of electricity from a renewable or environmentally friendly generation source.

REC Purchase and Incentives

Customers taking service under this rider shall enter into a Renewable Energy Technology Program Agreement with the Company which contains all terms and conditions related to the Company's purchase of RECs and payment of an incentive. Copies of the Company's Renewable Energy Technology Program Agreement are available upon request or on the Company's website.

Pursuant to the Renewable Energy Technology Program Agreement, the Company will provide an incentive, as defined below, to qualifying customers provided that all requirements are met and funds are available within the annual funding caps.

| System Type | Customer Type | Incentive Amount | Minimum System Size | Maximum Incentive As a % of System Cost | Maximum Incentive per Customer | Annual Funding Cap |
|----------------|------------------|------------------------|---------------------------|---|--------------------------------|--------------------------|
| Solar | Residential | \$1.50/watt | 2 kW (dc) | 50% | \$12,000 | \$400,000 |
| Photovoltaic | Non-Residential | \$1.50/watt | 10 kW (dc) | 50% | \$75,000 | \$600,000 |
| Wind | Residential | \$0.275/kWh | 3,000 kWh/year (ac) | 50% | \$7,500 | \$187,500 |
| | Non-Residential | \$0.275/kWh | 3,000 kWh/year (ac) | 40% | \$12,000 | \$62,500 |

Filed pursuant to Orders dated December 14, 2011 in Case Nos. 11-346-EL-SSO, 11-348-EL-SSO, 11-351-EL-AIR and 11-352-EL-AIR

Issued: December 22, 2011 Effective: January 1, 2012

RENEWABLE ENERGY TECHNOLOGY PROGRAM RIDER

Conditions of Service

- 1. To receive the incentive amounts as specified above, the customer agrees to assign all of the RECs produced by the solar photovoltaic or wind energy system to the Company for 15 years from the date the facility is installed.
- The Company's total funding for the Rider through June 30, 2013 is \$2.5 million with Annual Funding Caps as specified above.
- 3. For each System Type and Customer Type, any funds not awarded through June 30, 2012 will carry over and be available through June 30, 2013. Any funds not awarded by June 30, 2013 will not carry over beyond June 30, 2013. Any incentives must be awarded by June 30, 2013.
- 4. Applications will be processed and incentives will be awarded on a first-come, first-served basis, until the Company's funding is expended.
- 5. Only systems installed after July 1, 2011 are eligible to participate in this program.
- 6. Systems must be installed within six months after approval of the application or by June 30, 2013 if the application is made after December 31, 2012.
- 7. Unless stated otherwise in this Rider, all requirements of the respective NOFA #08-09 Renewable Energy Programs of the Ohio Department of Development – Ohio Energy Office will be enforced.
- 8. A utility grade meter capable of measuring kWh produced from the system must be installed for systems greater than 6 kW. Those systems 6 kW or below must meet PUCO approved means for measuring kWh production.
- 9. The customer must qualify for and take service under the Company's Schedule NEMS (Net Energy Metering Service).
- 10. The customer's system must be designed and installed to operate in parallel with the Company's system, through an interconnection agreement with the Company.
- 11. The system must be located on the same site where the customer's own electricity demand is located.
- 12. The customer must be the owner of the RECs.
- 13. The customer must secure PUCO certification as an Ohio Renewable Energy Resource Generating Facility for the system.
- 14. The customer will receive the incentive payment after the total system is installed and is in operation for 30 consecutive days.

Filed pursuant to Orders dated December 14, 2011 in Case Nos. 11-346-EL-SSO, 11-348-EL-SSO, 11-351-EL-AIR and 11-352-EL-AIR

Issued: December 22, 2011 Effective: January 1, 2012

RENEWABLE ENERGY TECHNOLOGY PROGRAM RIDER

- 15. The customer is responsible for providing monthly generator output readings to the Company and must complete an Annual Affidavit of Performance. The Company may also secure random readings for validation purposes.
- 16. If the system becomes inoperable for 90 days or if ownership of the property changes, the customer must refund to the Company a pro-rata amount of the incentive based upon the remaining term of the agreement.

This Rider will not modify the customer's bill for electric service under the applicable standard service schedule.

Special Terms and Conditions

This Rider is subject to the Company's Terms and Conditions of Service and all provisions of the standard service schedule under which the customer takes service.

Filed pursuant to Orders dated December 14, 2011 in Case Nos. 11-346-EL-SSO, 11-348-EL-SSO, 11-351-EL-AIR and 11-352-EL-AIR

SCHEDULE OAD - RS (Open Access Distribution - Residential Service)

Availability of Service

Available for residential service through one meter to individual residential customers who request and receive electric generation service from a qualified CRES Provider.

Monthly Rate (Schedule Code 820)

| | Distribution |
|-----------------------------------|-------------------------------|
| Customer Charge (\$) | 8.40 13.40 |
| Monthly Energy Charge (¢ per KWH) | 1.82747 <u>1.3</u> |
| | <u>4246</u> |

Transmission Service

Transmission service for customers served under this schedule will be made available under the terms and conditions contained within the applicable Open Access Transmission Tariff as filed with the Federal Energy Regulatory Commission and as specified in the Company's Terms and Conditions of Open Access Distribution Service.

Storage Water Heating Provision

Availability of this provision is limited to those customers served under this provision as of December 31, 2000.

If the customer installs a Company approved storage water heating system which consumes electrical energy only during off-peak hours as specified by the Company and stores hot water for use during on-peak hours, the following shall apply:

- (a) For minimum capacity of 80 gallons, the last 250 KWH of use in any month shall be billed at the storage water heating energy charge. (Schedule Code 812).
- (b) For minimum capacity of 100 gallons, the last 350 KWH of use in any month shall be billed at the storage water heating energy charge. (Schedule Code 813)
- (c) For minimum capacity of 120 gallons or greater, the last 450 KWH of use in any month shall be billed at the storage water heating energy charge. (Schedule Code 814)

| Storage Water Heating Energy Charge | |
|-------------------------------------|------------------------|
| (¢ per KWH) | 1.82747 1.3 |
| | <u>4246</u> |

These provisions, however, shall in no event apply to the first 200 KWH used in any month, which shall be billed in accordance with the Monthly Rate as set forth above.

| For the purpose of this provision, the on-peak billing | period is defined as 7 a.m. to 9 p.m. local | | |

3rd-4th Revised Sheet No. 210-2D Cancels 2nd-3rd Revised Sheet No. 210-2D

P.U.C.O. NO. 20

SCHEDULE OAD - RS (Open Access Distribution - Residential Service)

Day, Presidents' Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day.

The Company reserves the right to inspect at all reasonable times the storage water heating system and devices which qualify the residence for service under the Storage Water Heating Provision, and to ascertain by any reasonable means that the time-differentiated load characteristics of such devices meet the Company's specifications. If the Company finds that, in its sole judgment, the availability conditions of this provision are being violated, it may discontinue billing the customer under this provision and commence billing under the standard monthly rate.

Load Management Water Heating Provision (Schedule Code 811)

Availability of this provision is limited to those customers served under this provision as of December 31, 2000.

For residential customers who install a Company approved load management water heating system which consumes electrical energy primarily during off-peak hours specified by the Company and stores hot water for use during on-peak hours, of minimum capacity of 80 gallons, the last 250 KWH of use in any month shall be billed at the load management water heating energy charge.

| Load Management Water Heating Energy | |
|--------------------------------------|-------------------------------|
| Charge (¢ per KWH) | 1.82747 <u>1.3</u> |
| | 4246 |

This provision, however, shall in no event apply to the first 200 KWH used in any month, which shall be billed in accordance with the "Monthly Rate" as set forth above.

For the purpose of this provision, the on-peak billing period is defined as 7 a.m. to 9 p.m. local time for all weekdays, Monday through Friday. The off-peak billing period is defined as 9 p.m. to 7 a.m. for all weekdays, all hours of the day on Saturdays and Sundays, and the legal holidays of New Year's Day, Presidents' Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day.

The Company reserves the right to inspect at all reasonable times the load management storage water heating system and devices which qualify the residence for service under the Load Management Water Heating Provision, and to ascertain by any reasonable means that the time-differentiated load characteristics of such devices meet the Company's specifications. If the Company finds that, in its sole judgment, the availability conditions of this provision are being violated, it may discontinue billing the customer under this provision and commence billing under the standard monthly rate.

P.U.C.O. NO. 20

SCHEDULE OAD - RS (Open Access Distribution - Residential Service)

Metering and Billing Options

The customer has the option of selecting the Company and/or an alternative supplier for metering, meter data management or billing services. Such services provided to the customer by an alternative supplier must be arranged through the CRES Provider who provides energy services to the customer. Unless the customer explicitly designates otherwise, the Company shall continue to provide such services.

An alternative provider of metering services must be registered with the Company as a qualified Meter Service Provider (MSP) as specified in the Company's Supplier Terms and Conditions of Service. The MSP shall be responsible for providing, installing and maintaining the billing meter. Such metering must be of a type approved by the Company and must meet the Company's standards for safety, reliability and accuracy. The Company's meter must be removed by qualified personnel and returned to the Company at either the expense of the MSP or the customer. Once the Company's meter has been received and inspected by the Company, then a credit of \$0.12/month shall apply.

If the customer has received metering services from an MSP and subsequently elects to have the Company once again provide, install and maintain the metering, then the customer shall pay a one-time charge based on the type of meter required.

- 2) An alternative provider of meter data management services must be registered with the Company as a qualified Meter Data Management Agent (MDMA) as specified in the Company's Supplier Terms and Conditions of Service. The MDMA shall be responsible for the collection of metered data and for providing data to the Company and other entities as required for billing purposes.
- A provider of consolidated billing must be registered with the Company as a qualified Billing Agent (BA) as specified in the Company's Supplier Terms and Conditions of Service. The BA shall then provide to the customer a consolidated monthly bill specifying the supplier and charges for generation, transmission, distribution and other services. Unless the customer chooses a BA to provide a consolidated bill, or the customer's CRES Provider has made arrangements with the Company to provide a Company-issued consolidated bill, the Company will provide a separate billing for distribution services under the provisions of this schedule.

Payment

- 1) Bills from the Company are due and payable in full by mail, checkless payment plan, electronic payment plan, or at an authorized payment agent of the Company within 15 days after the mailing of the bill.
- Should a partial payment be made in lieu of the total payment of the amount owed to the Company, the payment provisions of this schedule shall apply. If a partial payment is made, such partial payment shall be applied to the various portions of the customer's bill in the following order: (a) past due CRES Provider charges, (b) past due distribution, Standard Offer Service generation and transmission charges, (c) current distribution, Standard Offer Service generation and transmission charges, (d) current CRES Provider charges, and (e) other past due and current non-regulated charges.

P.U.C.O. NO. 20

SCHEDULE OAD - RS (Open Access Distribution - Residential Service)

3) If the BA fails to provide payment to the Company by the date of the next monthly bill, the Company will thereafter directly bill the customer for distribution service. In addition, the financial instrument, as specified in the Supplier Terms and Conditions of Service, will be forfeited to the extent necessary to cover bills due and payable to the Company. Any remaining unpaid amounts and associated fees are the responsibility of the customer.

Applicable Riders

Monthly charges computed under this schedule shall be adjusted in accordance with the Commission-approved riders on Sheet Number 104-1D.

Term of Contract

A written agreement may, at the Company's option, be required.

Special Terms and Conditions

This schedule is subject to the Company's Terms and Conditions of Open Access Distribution Service.

This schedule is available to customers engaged in agricultural enterprises where service is taken through one meter for that customer's primary residence, and not more than 100 KW of connected electrical load is outside the residence. This schedule is not extended to operations of a commercial nature or operations such as processing, preparing, or distributing products not raised or produced on the farm, unless such operation is incidental to the usual residential and farm uses.

This schedule is intended for single-phase service. Where the residential customer requests three-phase service, this schedule will apply if the residential customer pays to the Company the difference between constructing single-phase service and three-phase service. Where motors or heating equipment are used for commercial or industrial purposes, the applicable general service schedule will apply to such service.

Customers with cogeneration, small power production facilities, and/or other on-site sources of electrical energy supply shall take any required distribution service under –the applicable Residential Service Schedule or Schedule OAD - NEMS. For customers with cogeneration and/or small power production facilities which do not qualify for service under Schedule COGEN/SPP or Schedule NEMS, detents shall be used on the necessary metering to prevent reverse rotation. At its discretion, the Company may require that Company-owned metering be installed to monitor the customer's generation. The Company reserves the right to inspect the customer's relays and protective equipment at all reasonable times.

Schedule OAD – RR (Open Access Distribution – Residential Service)

Availability of Service

Available for residential service through one meter to individual residential customers, who request and receive electric generation service from a qualified CRES Provider.

Monthly Rate (Schedule Code 820)

| Customer Charge (\$) | 8.40 <u>13.40</u> |
|---|------------------------------|
| Monthly Distribution Charge (¢ per KWH) | 1.82747 1.34246 |

Minimum Charge

The minimum monthly charge under this schedule shall be the sum of the customer charge and all applicable riders.

Transmission Service

Transmission service for customers served under this schedule will be made available under the terms and conditions contained within the applicable Open Access Transmission Tariff as filed with the Federal Energy Regulatory Commission and as specified in the Company's Terms and Conditions of Open Access Distribution Service.

Storage Water Heating Provision

Availability of this provision is limited to those customers served under this provision as of December 31, 2000.

If the customer installs a Company approved storage water heating system which consumes electrical energy only during off-peak hours as specified by the Company and stores hot water for use during on-peak hours, the following shall apply:

- (a) For minimum capacity of 80 gallons, the last 300 KWH of use in any month shall be billed at the storage water heating energy charge. (Schedule Code 816)
- (b) For minimum capacity of 100 gallons, the last 400 KWH of use in any month shall be billed at the storage water heating energy charge. (Schedule Code 817)
- (c) For minimum capacity of 120 gallons or greater, the last 500 KWH of use in any month shall be billed at the storage water heating energy charge. (Schedule Code 818)

| Storage Water Heating Energy Charge | |
|-------------------------------------|------------------------|
| (¢ per KWH) | 1.82747 1.3 |
| | <u>4246</u> |

These provisions, however, shall in no event apply to the first 200 KWH used in any month, which shall be billed in accordance with the "Monthly Rate" as set forth above.

1. An alternative provider of metering services must be registered with the Company as a qualified Meter Service Provider (MSP) as specified in the Company's Supplier Terms and Conditions of Service. The MSP shall be responsible for providing, installing and maintaining the billing meter. Such metering must be of a type approved by the Company and must meet the Company's standards for safety, reliability and accuracy. The Company's meter must be removed by qualified personnel and returned to the Company at either the expense of the MSP or the customer. Once the Company's meter has been received and inspected by the Company, then a credit of \$0.11/month shall apply.

If the customer has received metering services from an MSP and subsequently elects to have the Company once again provide, install and maintain the metering, then the customer shall pay a one-time charge based on the type of meter required.

- 2. An alternative provider of meter data management services must be registered with the Company as a qualified Meter Data Management Agent (MDMA) as specified in the Company's Supplier Terms and Conditions of Service. The MDMA shall be responsible for the collection of metered data and for providing data to the Company and other entities as required for billing purposes.
- 3. A provider of consolidated billing must be registered with the Company as a qualified Billing Agent (BA) as specified in the Company's Supplier Terms and Conditions of Service. The BA shall then provide to the customer a consolidated monthly bill specifying the supplier and charges for generation, transmission, distribution and other services. Unless the customer chooses a BA to provide a consolidated bill, or the customer's CRES Provider has made arrangements with the Company to provide a Company-issued consolidated bill, the Company will provide a separate billing for distribution services under the provisions of this schedule.

Payment

- 1. Bills from the Company are due and payable in full by mail, checkless payment plan, electronic payment plan, or at an authorized payment agent of the Company within 15 days after the mailing of the bill.
- 2. Should a partial payment be made in lieu of the total payment of the amount owed to the Company, the payment provisions of this schedule shall apply. If a partial payment is made, such partial payment shall be applied to the various portions of the customer's bill in the following order: (a) past due CRES Provider charges, (b) past due distribution, Standard Offer Service generation and transmission charges, (c) current distribution, Standard Offer Service generation

and transmission charges, (d) current CRES Provider charges, and (e) other past due and current non-regulated charges.

3. If the BA fails to provide payment to the Company by the date of the next monthly bill, the Company will thereafter directly bill the customer for distribution service. In addition, the financial instrument, as specified in the Supplier Terms and Conditions of Service, will be forfeited to the extent necessary to cover bills due and payable to the Company. Any remaining unpaid amounts and associated fees are the responsibility of the customer.

Applicable Riders

Monthly charges computed under this schedule shall be adjusted in accordance with the Commission-approved riders on Sheet No. 104-1D.

Term of Contract

A written agreement may, at the Company's option, be required.

Special Terms and Conditions

This schedule is subject to the Company's Terms and Conditions of Service.

This schedule is available to customers engaged in agricultural enterprises where service is taken through one (1) meter for that customer's primary residence, and not more than 100 kW of connected electrical load outside the residence. This schedule is not extended to operation of a commercial nature or operations such as processing, preparing or distributing products not raised or produced on the farm, unless such operation is incidental to the usual residential and farm uses.

This schedule is intended for single phase service. Where the residential customer requests three-phase service, this schedule will apply if the residential customer pays to the Company the difference between constructing single-phase service and three-phase service. Where motors or heating equipment are used for commercial or industrial purposes, the applicable general service schedule will apply to such service.

Customers with cogeneration and/or small power production facilities, and/or other on-site sources of electrical energy supply shall take any required distribution service under the applicable Residential Service Schedule or Schedule OAD - NEMS. For customers with cogeneration and/or small power production facilities which do not qualify for service under Schedule COGEN/SPP or Schedule NEMS, detents shall be used on the necessary metering to prevent reverse rotation. At its discretion, the Company may require that Company-owned metering be installed to monitor the customer's generation. The Company reserves the right to inspect the customer's relays and protective equipment at all reasonable times.

SCHEDULE OAD - RR1 (Open Access Distribution - Residential Small Use Load Management Service)

Availability of Service

Available for residential service through one meter to individual residential customers who normally do not use more than 600 KWH per month during the summer period and who request and receive electric generation service from a qualified CRES Provider. Any new customer or an existing customer who changes service location will be billed under Schedule OAD-RR until the first billing month during the summer period.

Monthly Rate (Schedule Code 822)

| Customer Charge (\$) | 8.40 13.40 |
|------------------------------------|------------------------|
| Monthly Energy Charge (¢ per KWH): | 1.82747 1.3 |
| | <u>4246</u> |

In any summer billing month if usage exceeds 700 KWH, billing will be rendered that month under Schedule OAD-RR and thereafter for all subsequent months through the four months of the next summer period.

Seasonal Periods

The winter period shall be the billing months of October through May and the summer period shall be the billing months of June through September.

Minimum Charge

The minimum monthly charge for service under this schedule shall be the sum of the Customer Charge and all applicable riders.

Transmission Service

Transmission service for customers served under this schedule will be made available under the terms and conditions contained within the applicable Open Access Transmission Tariff as filed with the Federal Energy Regulatory Commission and as specified in the Company's Terms and Conditions of Open Access Distribution Service.

Storage Water Heating Provision

Availability of this provision is limited to those customers served under this provision as of December 31, 2000.

If the customer installs a Company approved storage water heating system which consumes electrical energy only during off-peak hours as specified by the Company and stores hot water for use during on-peak hours, the following shall apply:

| Filed pursuant to Order dated February 2 | 25, 2015 in Case No. 13-2385-EL-SSO |

SCHEDULE OAD - RR1

(Open Access Distribution - Residential Small Use Load Management Service)

- (a) For minimum capacity of 80 gallons, the last 300 KWH of use in any month shall be billed at the storage water heating energy charge. (Schedule Code 823)
- (b) For minimum capacity of 100 gallons, the last 400 KWH of use in any month shall be billed at the storage water heating energy charge. (Schedule Code 824)
- (c) For minimum capacity of 120 gallons or greater, the last 500 KWH of use in any month shall be billed at the storage water heating energy charge. (Schedule Code 825)

| Storage Water Heating Energy Charge | |
|-------------------------------------|------------------------|
| (¢ per KWH) | 1.82747 1.3 |
| | 4246 |

These provisions, however, shall in no event apply to the first 200 KWH used in any month, which shall be billed in accordance with the "Monthly Rate" as set forth above. In addition, the KWH billed under this provision shall not apply to the 700 KWH eligibility requirement for service under this schedule.

For the purpose of this provision, the on-peak billing period is defined as 7 a.m. to 9 p.m. local time for all weekdays, Monday through Friday. The off-peak billing period is defined as 9 p.m. to 7 a.m. for all weekdays, all hours of the day on Saturdays and Sundays, and the legal holidays of New Year's Day, Presidents Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day.

The Company reserves the right to inspect at all reasonable times the storage water heating system and devices which qualify the residence for service under the Storage Water Heater Provision, and to ascertain by any reasonable means that the time-differentiated load characteristics of such devices meet the Company's specifications. If the Company finds that in its sole judgment the availability conditions of this schedule are being violated, it may discontinue billing the customer under this provision and commence billing under the standard monthly rate.

This provision is subject to the Customer Charge as stated in the above monthly rate.

Load Management Water Heating Provision (Schedule Code 828)

Availability of this provision is limited to those customers served under this provision as of December 31, 2000.

For residential customers who install a Company-approved load management water heating system which consumes electrical energy primarily during off-peak hours specified by the Company and stores hot water for use during on-peak hours, of minimum capacity of 80 gallons, the last 250 KWH of use in any month shall be billed at the load management water heating energy charge.

| Load Management Water Heating Energy Charge (¢ per KWH) | <u>1.827471.3</u> |

SCHEDULE OAD - RR1 (Open Access Distribution - Residential Small Use Load Management Service)

| | <u>4246</u> |
|--|-------------|
| | |

This provision, however, shall in no event apply to the first 200 KWH used in any month, which shall be billed in accordance with the "Monthly Rate" as set forth above. In addition, the KWH billed under this provision shall not apply to the 700 KWH eligibility requirement for service under this schedule.

For purpose of this provision, the on-peak billing period is defined as 7 a.m. to 9 p.m. local time for all weekdays, Monday through Friday. The off-peak billing period is defined as 9 p.m. to 7 a.m. for all weekdays, all hours of the day on Saturdays and Sundays, and the legal holidays of New Year's Day, Presidents Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day.

The Company reserves the right to inspect at all reasonable times the load management storage water heating system and devices which qualify the residence for service under the Load Management Water Heating Provision, and to ascertain by any reasonable means that the time-differentiated load characteristics of such devices meet the Company's specifications. If the Company finds that in its sole judgment the availability conditions of this provision are being violated, it may discontinue billing the customer under this provision and commence billing under the standard monthly rate.

This provision is subject to the Customer Charge as stated in the above monthly rate.

Metering and Billing Options

The customer has the option of selecting the Company and/or an alternative supplier for metering, meter data management or billing services. Such services provided to the customer by an alternative supplier must be arranged through the CRES Provider who provides energy services to the customer. Unless the customer explicitly designates otherwise, the Company shall continue to provide such services.

- 1. An alternative provider of metering services must be registered with the Company as a qualified Meter Service Provider (MSP) as specified in the Company's Supplier Terms and Conditions of Service. The MSP shall be responsible for providing, installing and maintaining the billing meter. Such metering must be of a type approved by the Company and must meet the Company's standards for safety, reliability and accuracy. The Company's meter must be removed by qualified personnel and returned to the Company at either the expense of the MSP or the customer. Once the Company's meter has been received and inspected by the Company, then a credit of \$0.11/month shall apply.
 - If the customer has received metering services from an MSP and subsequently elects to have the Company once again provide, install and maintain the metering, then the customer shall pay a one-time charge based on the type of meter required.
- 2. An alternative provider of meter data management services must be registered with the Company as a qualified Meter Data Management Agent (MDMA) as specified in the Company's Supplier Terms and Conditions of Service. The MDMA shall be responsible for the collection of metered data and for providing data to the Company and other entities as required for billing purposes.

SCHEDULE OAD - RR1 (Open Access Distribution - Residential Small Use Load Management Service)

3. A provider of consolidated billing must be registered with the Company as a qualified Billing Agent (BA) as specified in the Company's Supplier Terms and Conditions of Service. The BA shall then provide to the customer a consolidated monthly bill specifying the supplier and charges for generation, transmission, distribution and other services. Unless the customer chooses a BA to provide a consolidated bill, or the customer's CRES Provider has made arrangements with the Company to provide a Company-issued consolidated bill, the Company will provide a separate billing for distribution services under the provisions of this schedule.

Payment

- 1. Bills from the Company are due and payable in full by mail, checkless payment plan, electronic payment plan, or at an authorized payment agent of the Company within 15 days after the mailing of the bill.
- 2. Should a partial payment be made in lieu of the total payment of the amount owed to the Company, the payment provisions of this schedule shall apply. If a partial payment is made, such partial payment shall be applied to the various portions of the customer's bill in the following order: (a) past due CRES Provider charges, (b) past due distribution, Standard Offer Service generation and transmission charges, (c) current distribution, Standard Offer Service generation and transmission charges, (d) current CRES Provider charges, and (e) other past due and current non-regulated charges.
- 3. If the BA fails to provide payment to the Company by the date of the next monthly bill, the Company will thereafter directly bill the customer for distribution service. In addition, the financial instrument, as specified in the Supplier Terms and Conditions of Service, will be forfeited to the extent necessary to cover bills due and payable to the Company. Any remaining unpaid amounts and associated fees are the responsibility of the customer.

Applicable Riders

Monthly Charges computed under this schedule shall be adjusted in accordance with the Commission-approved riders on Sheet Number 104-1D.

Term of Contract

A written agreement may, at the Company's option, be required.

Special Terms and Conditions

This schedule is subject to the Company's Terms and Conditions of Service.

This schedule is available to customers engaged in agricultural enterprises where service is taken through one (1) meter for that customer's primary residence, and not more than 100 kW of connected electrical load outside the residence. This schedule is not extended to operation of a commercial nature

or operations such as processing, preparing or distributing products not raised or produced on the farm, unless such operation is incidental to the usual residential and farm uses.

This schedule is intended for single phase service. Where the residential customer requests three-phase service, this schedule will apply if the residential customer pays to the Company the difference between constructing single-phase service and three-phase service. Where motors or heating equipment are used for commercial or industrial purposes, the applicable general service schedule will apply to such service.

Customers with cogeneration and/or small power production facilities, and/or other on-site sources of electrical energy supply shall take any required distribution service under the applicable Residential Service Schedule or Schedule OAD - NEMS. For customers with cogeneration and/or small power production facilities which do not qualify for service under Schedule COGEN/SPP or Schedule NEMS, detents shall be used on the necessary metering to prevent reverse rotation. At its discretion, the Company may require that Company-owned metering be installed to monitor the customer's generation. The Company reserves the right to inspect the customer's relays and protective equipment at all reasonable times.

Filed pursuant to Order dated February 25, 2015 in Case No. 13-2385-EL-SSO

Issued: April 24, 2015 Effective: June 1, 2015

<u>OAD – INTERRUPTIBLE POWER RIDER</u> (Open Access Distribution – Interruptible Power Rider)

Availability of Service

Service pursuant to this rider is limited to members of the signatory and non-opposing parties to the stipulation filed and approved in Case No. 14-1693-EL-RDR and new businesses locating in the service territory of AEP Ohio that have provided reasonable evidence to the Company that their electric service can be interrupted within a 10-minute notice period. Customers shall contract for electrical capacity sufficient to meet normal maximum requirements.

The total interruptible power contract capacity for all customers served under this rider is 250,000 kW. The total interruptible power contract capacity for new businesses is limited to 150,000 kW. These amounts shall not include the contract capacity of the customers receiving the interruptible credit as of May 13, 2016. If 100,000kW of the member contract capacity load cap is subscribed to by March 31, 2017, an additional 25,000 kW of interruptible contract capacity shall be made available to members of the signatory parties.

Although the customer may receive interruption notifications either directly from PJM or from their third-party curtailment service provider, the Company will communicate interruption information to the customer through its Customer Communications System or a successor system. All costs associated with providing the initial, required Customer Communications System will be borne by the customer.

Enrollment, Registration and Participation in PJM Demand Response Programs

To participate in this rider, the customer must register with PJM as a full, annual emergency or pre-emergency demand response resource with a 30-minute notification time and offer such capability into the PJM reliability pricing model auctions for the PJM planning/delivery year (June 1 through May 31).

Participation in this rider does not preclude the customer from also participating in other PJM demand response programs, such as the economic and ancillary service programs.

Interruption Conditions

The Company reserves the right to interrupt, in its sole discretion, service under this rider at any time to comply with PJM requirements for full, annual emergency demand response resources.

Failure to Comply With A Request For Interruption

If the customer fails to interrupt load in accordance with this rider, the customer will be required to refund all rate discounts received under this rider during the preceding 12 months for the uninterrupted demand. The uninterrupted demand will be calculated as the difference between the maximum 30-minute integrated demand during each Emergency Interruption and the sum of the customer's contract capacities under any schedule where service is not interrupted. The rate discount will be the demand credit as specified in this rider.

| Filed pursuant to Order dated | in Case No.13-2385-EL-SSO | |
|-------------------------------|---------------------------|------------|
| Issued: | | Effective: |
| | <u>Issued by</u> | |

AEP Ohio

OAD – INTERRUPTIBLE POWER RIDER (Open Access Distribution – Interruptible Power Rider)

Term of Contract

<u>The customer shall contract for capacity sufficient to meet normal maximum power requirements</u> under the applicable open access distribution service rate schedule.

Contracts under this rider shall remain in effect for a period of not less than one (1) PJM delivery year (June 1 through May 31) and shall remain in effect unless either party shall give at least 1-year's written notice to the other of the intention to discontinue service from the Company.

Firm Service Designation

The customer must designate a firm service contract capacity for such service.

Monthly Rate

In addition to the monthly charges for service under the applicable standard service rate schedule under which the customer receives service, the customer shall receive a Demand Credit for monthly interruptible demand as follows:

Demand Credit (\$ per kW)

| | Prior to June 2018 | June 2018 - May 2024 |
|------------------|--------------------|----------------------|
| All participants | <u>(8.21)</u> | <u>(9.00)</u> |

The Demand Credit shall apply to the customer's monthly interruptible demand. Monthly interruptible demand shall be the difference between the monthly billing demand determined in accordance with the standard service rate schedule under which the customer receives service and the customer designated firm service contract capacity. In no event shall the customer's monthly interruptible demand be greater than the customer's interruptible service contract capacity.

Since the customer will be compensated by PJM, the customer shall agree to turn over to the Company PJM capacity auction revenue and emergency energy payments received by PJM.

Special Terms and Conditions

By participating in this rider, the customer is agreeing to commit its demand response capabilities hereunder to the Company for integration in the Company's energy efficiency and peak demand reduction programs. In delivery years when there are no emergency or pre-emergency events, the customer agrees to provide the Company the results of any interruption tests performed in accordance with the PJM tariff as evidence of the customer's ability to interrupt. Failure to provide this testing information or failure to adequately perform during such a test shall be considered a failure to interrupt under this rider.

This rider is subject to the Company's Terms and Conditions of Service and all provisions of the rate schedule under which the customer takes service.

In addition to the monthly charges for service under the applicable standard service rate schedule under which the customer receives service, the customer shall receive an Energy Credit of \$0.01 per kWh for all monthly kWh consumption above the customer's monthly baseline consumption, subject to the Rider Annual Cap. Monthly charges for all kWh consumption at or below the customer's monthly baseline consumption shall be priced according to the customer's standard service rate schedule.

Baseline Consumption

A customer's monthly baseline consumption shall be equal to one-twelfth of the customer's calendar year 2009 annual usage.

Rider Annual Cap

Total credits under this rider shall not exceed \$500,000 in any calendar year. In the event that one or more monthly customer bills contain kWh consumption which would cause the total calendar year credits under this rider to exceed the Annual Cap, the Company will divide the remaining credits under the Annual Cap equally among eligible customer bills for that month.

Special Terms and Conditions

This rider is subject to the Company's Terms and Conditions of Service and all provisions of the rate schedule under which the customer takes service.

OAD - RENEWABLE ENERGY TECHNOLOGY PROGRAM RIDER (Open Access Distribution – Renewable Energy Technology Program Rider)

Availability of Service

Available to customers taking electric service under the Company's standard service or open access distribution schedules that install a solar photovoltaic or wind energy system after July 1, 2011 and before June 30, 2013. Such systems must be located in the Company's service territory and have been certified as an Ohio Renewable Energy Resource Generating Facility by the Public Utilities Commission of Ohio.

This Rider shall remain in effect until June 30, 2013, while agreements entered into under the program will extend beyond the effective period of the Rider.

Definitions

"Solar Photovoltaic" means energy from devices which generate electricity directly from sunlight through the movement of electrons.

"Wind Energy" means electricity generated from wind turbines, windmills, or other technology that converts wind into electricity.

"Renewable Energy Certificate" ("REC") means a tradable unit that represents the commodity formed by unbundling the environmental attributes of a unit of renewable energy from the underlying electricity. One REC would be equivalent to the environmental attributes of one MWH of electricity from a renewable or environmentally friendly generation source.

REC Purchase and Incentives

Customers taking service under this rider shall enter into a Renewable Energy Technology Program Agreement with the Company which contains all terms and conditions related to the Company's purchase of RECs and payment of an incentive. Copies of the Company's Renewable Energy Technology Program Agreement are available upon request or on the Company's website.

Pursuant to the Renewable Energy Technology Program Agreement, the Company will provide an incentive, as defined below, to qualifying customers provided that all requirements are met and funds are available within the annual funding caps.

| System Type | Customer Type | Incentive Amount | Minimum System Size | Maximum Incentive As a % of System Cost | Maximum Incentive per Customer | Annual Funding Cap |
|-----------------------|------------------|------------------------|---------------------------|---|---|--------------------------|
| Solar Photovoltaic | Residential | \$1.50/watt | 2 kW (dc) | 50% | \$12,000 | \$400,000 |
| | Non-Residential | \$1.50/watt | 10 kW (dc) | 50% | \$75,000 | \$600,000 |
| Wind | Residential | \$0.275/kWh | 3,000 kWh/year (ac) | 50% | \$7,500 | \$187,500 |
| | Non-Residential | \$0.275/kWh | 3,000 kWh/year (ac) | 40% | \$12,000 | \$62,500 |

Filed pursuant to Orders dated December 14, 2011 in Case Nos. 11-346-EL-SSO, 11-348-EL-SSO, 11-351-EL-AIR. and 11-352-EL-AIR

Issued: December 22, 2011 Effective: January 1, 2012

OAD - RENEWABLE ENERGY TECHNOLOGY PROGRAM RIDER (Open Access Distribution — Renewable Energy Technology Program Rider)

Conditions of Service

- 1. To receive the incentive amounts as specified above, the customer agrees to assign all of the RECs produced by the solar photovoltaic or wind energy system to the Company for 15 years from the date the facility is installed.
- 2. The Company's total funding for the Rider through June 30, 2013 is \$2.5 million with Annual Funding Caps as specified above.
- 3. For each System Type and Customer Type, any funds not awarded through June 30, 2012 will carry over and be available through June 30, 2013. Any funds not awarded by June 30, 2013 will not carry over beyond June 30, 2013. Any incentives must be awarded by June 30, 2013.
- 4. Applications will be processed and incentives will be awarded on a first-come, first-served basis, until the Company's funding is expended.
- 5. Only systems installed after July 1, 2011 are eligible to participate in this program.
- 6. Systems must be installed within six months after approval of the application or by June 30, 2013 if the application is made after December 31, 2012.
- 7. Unless stated otherwise in this Rider, all requirements of the respective NOFA #08-09 Renewable Energy Programs of the Ohio Department of Development Ohio Energy Office will be enforced.
- 8. A utility grade meter capable of measuring kWh produced from the system must be installed for systems greater than 6 kW. Those systems 6 kW or below must meet PUCO approved means for measuring kWh production.
- 9. The customer must qualify for and take service under the Company's Schedule NEMS (Net Energy Metering Service).
- 10. The customer's system must be designed and installed to operate in parallel with the Company's system, through an interconnection agreement with the Company.
- 11. The system must be located on the same site where the customer's own electricity demand is located.
- 12. The customer must be the owner of the RECs.
- 13. The customer must secure PUCO certification as an Ohio Renewable Energy Resource Generating Facility for the system.

Filed pursuant to Orders dated December 14, 2011 in Case Nos. 11-346-EL-SSO, 11-348-EL-SSO, 11-351-EL-AIR. and 11-352-EL-AIR

Issued: December 22, 2011 Effective: January 1, 2012

OAD - RENEWABLE ENERGY TECHNOLOGY PROGRAM RIDER (Open Access Distribution – Renewable Energy Technology Program Rider)

- 14. The customer will receive the incentive payment after the total system is installed and is in operation for 30 consecutive days.
- 15. The customer is responsible for providing monthly generator output readings to the Company and must complete an Annual Affidavit of Performance. The Company may also secure random readings for validation purposes.
- 16. If the system becomes inoperable for 90 days or if ownership of the property changes, the customer must refund to the Company a pro-rata amount of the incentive based upon the remaining term of the agreement.

This Rider will not modify the customer's bill for electric service under the applicable standard service schedule.

Special Terms and Conditions

This Rider is subject to the Company's Terms and Conditions of Service and all provisions of the standard service schedule under which the customer takes service.

Filed pursuant to Orders dated December 14, 2011 in Case Nos. 11-346-EL-SSO, 11-348-EL-SSO, 11-351-EL-AIR, and 11-352-EL-AIR
