COMMENT DESCRIPTION:

I am writing to oppose Duke Energy's current plans for the Central corridor Pipeline (Case 16-253-GA-BTX). With so much open space surrounding Cincinnati it seems illogical to route a pipeline through and/or near such a populated area. In addition to the loss of green space along Glendale-Milford Road in Evendale, the green pipeline would cause increased traffic issues during construction, and most importantly a public safety hazard in the event that there is a pipeline accident., My perspective is for you to find an option that doesn't go through a densely populated area because of the potential dangers. There are many good options from which to choose in rural areas. Please feel free to contact me. Thank you, Donna Carnevale
