COMMENTS: I am strongly opposed to the pipeline slated for installation in Blue Ash, OH via Bluewing Terrace. I cannot even comprehend why Duke Energy is proposing such a massive project, which involves clear cutting green space, installing gas pipes near a residential neighborhood, a place of worship, and a school. How shameful! The environmental impact and the potential ramifications of an explosion are terrifying. Believe me, I do not believe the propaganda Duke Energy is littering in our mail boxes. Just last month, Texas Gas had a pipeline accident. I don't want to go to sleep at night and worry their poor planning, poor workmanship, and misinformation will impact my family's health and well being. Please stop this project and please keep it out of Bluewing and away from Blue Ash Elementary!!!!
