COMMENT DESCRIPTION:

I am strongly opposed to Duke Energy's plan to run a gas pipeline through Evendale, Blue Ash, and other populated areas. I personally live in Evendale in the Park Hills subdivision and running the gas line up Glendale-Milford Rd. will cause tremendous traffic issues during construction. Further, the trees will need to be removed detracting from the property values and the general aesthetics of the neighborhood. However, most importantly, is the danger involved in putting this pipeline through a heavily populated area. This pipeline can and should be run through non-residential areas. I strongly urge PUCO to deny this request by Duke Energy and to require this pipeline, if it is needed at all, to be run only through non-residential areas. Thank you, Ellen Perazzo
