

10-253-GA-BTX

I am writing to express my opposition to the natural gas pipeline extension proposed by Duke Energy. I understand the increased need for natural gas to supply new suburbs, but I think the pipeline should be rerouted through less densely populated areas. All three proposed routes pass too close to residential areas, schools, and daycare centers and thus pose an unnecessary risk should an accident occur. Safety of all our citizens should be our prime concern. In addition, the digging and tree removal would be very disruptive and have an adverse effect on the appearance of the neighborhoods.
