COMMENT DESCRIPTION:

As a resident on Ridge Ave, I am voicing my opposition to the proposed Duke Energy pipeline. The proposed routes are lacking in sound planning and judgement and pose a significant safety risk. These plans also trounce upon property owner rights and could have long lasting impacts on the health and safety of residents as well as on citizens property values. The proposed route that would run in front of my property would cause a major upheaval of the lives of not only the residents who live along the route, but also the many people who use our street to get to and from school and work. There must be a better route out there, one that does not risk the safety and rights of an entire community.
