Dear Mr. Butler:

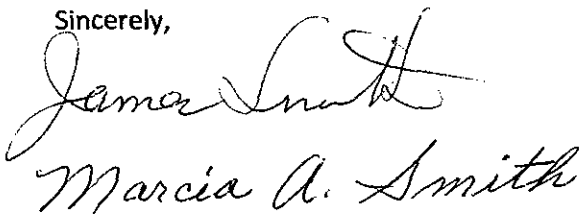

We are outraged over the Duke Energy gas pipeline project going through Blue Ash OH.

It is unthinkable and appalling that Duke Energy would even consider installing this pipeline in an existing residential area. This is not an NIMBY situation.

It actually is criminal to place so many lives and property in danger with a 30 inch high pressure gas line similar to one that blew up in California last year.

Your decision must be: relocation to a non-residential/populated area.

Sincerely,

  
James and Marcia Smith
