Subject: Proposed Gas Pipeline Through Blue Ash

I just learned of Duke Energy's plan to put a natural gas pipeline through my community (Blue Ash, OH). I'm shocked that the project got this far without any information being provided to impacted residents.

The reason I have loved northeast Hamilton County is because it has been such a safe and secure place to raise my family. This pipeline has the potential to shatter that feeling, not to mention absolutely devastate property values regardless of how safe it is alleged to be.

Surely there are more rural or industrial areas that would be safer for such a project than a highly populated residential community. Please let me know what we can do, with your help, to avoid this threat to our health and homes.

Bonnie Esrig
