Subject: NO to DUKE Pipeline

I am writing as a concerned citizen with a young family that will be directly in the path of the proposed Duke Pipeline proposed for North-Central Cincinnati.

Citizens and, one would hope, our Public Officials, charged with protecting the public interest and safety, need look no further than the events in San Bruno, CA in 2010 when making their decision on this proposal.

To put the lives and homes of citizens in such imminent danger would be unequivocally irresponsible and patently dangerous.

Notwithstanding the immense burden and disruption such a construction project (even a safe one – which this is *not*) would have on the communities and people living in the areas surrounding the pipeline.

I plead and urge the Power Siting Board to make the responsible decision in this matter and protect their fellow citizens from being exposed to such danger and unnecessary public disruption.

Tyler N. Davis, PHR, SHRM-CP
