Subject: Pipe Line

Hi,

As a resident of Amberley Village, I fill very strongly against the suggested pipeline. In addition to having the main through fare to our police and fire department under construction, the fact that we are with in a blast zone if something happens is so much worst. While I am sure that all safety is being considered, recent events around the US show the devastation that can come out of just one accident with such a pipe line. There is no reason my family and I should live in danger for something that would only make Duke happy. I am confident that the Board will think first about our safety before the business dealings of Duke.

Thank you for taking the time to read this email,
Eitan and Rivka Laghaie
