**Subject:** 16-253-GA-BTX - Against Gas Pipe Line via Blue ASH 45242

I am a resident of Blue Ash, OH 45252, i am AGAINST the proposed duke gas pipeline coming through Blue ASH, OH. This is a well established old homes and neighborhood and a densely populated area, there risks are too high versus the benefits, especially with our nation moving towards green energy, solar and wind, why are we laying and encouraging new gas pipelines ? In summary i am totally against laying the gas pipeline through Blue Ash, near blue ash road nor via UC Blue Ash, this puts lives at risk, needless to say the traffic is very congested during business hours and the blue ash intersections are one of the high risk accident prone zones, given that having construction for over 12 months will just add to the traffic issues and lead to more danger.

So i respectfully urge to avoid going with the route to lay the pipe line via BLUE ASH, OH

Thanks much  
Suresh P  
Blue Ash, Resident 45242
