Subject: Duke Energy Proposed Pipeline in Cincinnati

I am opposed to the construction of a pipeline proposed by Duke Energy. The route is vague and the current proposed lines run directly through neighborhoods, by schools and businesses. I have not read any significant documentation that this is a safe or even necessary proposal. I would hope that in the next decade, alternative energy sources would eliminate the need for natural gas. The risk to lives, especially of children, outweighs any economic benefit, especially if the goal is to transport natural gas to shipping ports.

Please vote no on this proposal.

Thank you.
