COMMENTS: My wife and I live along one of the proposed routes in Pleasant Ridge. We oppose the proposed 30 inch pipeline for a variety of reasons. We do not believe it is safe to have such a large, high pressure gas line running through densely populated residential neighborhoods. My understanding is that a line of this size and pressure has never been used before in a residential neighborhood. We will not be the pilot neighborhood for such a potentially dangerous technology, especially since Duke energy has not been forthcoming with information on the project.

We are working with our community, city, and state leaders to stop Duke energy from installing this pipeline. We will not grant Duke Energy an easement and will start legal action as soon as we have cause. Furthermore we will council our neighbors on how to do the same. Pleasant Ridge is a strong and vibrant community that will not stand for this level of risk.

Thank you for listening to my concerns and please inform me of any and all ways we can oppose this pipeline development.

Sincerely,
Matt Vorst
