Subject: OPSB case number 16-0253-GA-BTX

I am writing to in my capacity as President of the Woodmaker's Ridge Homeowner's Association to express our opposition to the proposed Duke Energy Natural Gas Pipeline Extension. Woodmaker's Ridge is a neighborhood of twenty homes in the Carpenter's Run area of Blue Ash, Ohio. We are alarmed to see that Duke Energy plans to place a large, high pressure natural gas pipeline through central Hamilton County close to our homes, schools, hospitals, places of worship, and many businesses. We are very concerned about the safety of such a pipeline as we know that devastating accidents have occurred with this kind of pipeline in other parts of the country. We are also concerned about the disruption to our community that would be caused by the amount of digging and tree removal necessary to lay the pipeline and its effect on our home values. The homeowners in our association request that the Ohio Power Siting Board recommend the rejection of Duke Energy's request and demand that they place the pipeline in an area away from the population density of Hamilton County.

Thank you for your consideration.
