Subject: OPSB case number 16-0253-GA-BTX

I'm writing because I oppose the suggested route of a high pressure pipeline coming through Blue Ash Ohio. The proposed route will put my young family, and many others like us at risk as we go about our daily lives walking the downtown area and sending our children to schools close to the proposed pipeline. With the track record of catastrophic failures due to the amount of gas running through these lines- I don't want to have to worry about a failure occurring and potentially destroying our family, home, or children while they are at school.

Please help keep your city safe by opposing densely populated the Blue Ash route.
