

APPENDIX B

LETTERS TO PUBLIC OFFICIALS

June 13, 2016

Nelsonville Public Library
Mr. Ryan Spellman, Branch Manager
95 West Washington Street
Nelsonville, OH 45764

RE: Letter of Notification
Poston-Lick 138kV Transmission Line Rebuild Project
Case Number: 16-0020-EL-BLN

Dear Mr. Spellman:

In accordance with Rules 4906 of the Ohio Administrative Code (OAC), AEP Ohio Transmission Company, Inc., (AEP Ohio Transco) is required to submit a Letter of Notification to the State of Ohio Power Siting Board (OPSB) whenever certain changes are made to our transmission facilities.

The proposed Poston-Lick 138kV Transmission Line Rebuild Project, Public Utilities Commission of Ohio Case Number 16-0020-EL-BLN, consists of rebuilding of an existing 138-kilovolt (kV) transmission line within existing right-of-way. The total length of the Poston-Lick transmission line is approximately 35 miles long. AEP Ohio Transco plans to rebuild about 22 miles of the transmission line. In the future, about 13 miles of this transmission line will be retired and removed. AEP Ohio Transco will rebuild the single circuit transmission line using primarily two-pole or H-Frame 138-kV structures. This project will be an approximate \$20 million investment by AEP Ohio Transco. Construction is anticipated to begin in July 2016.

We ask that this Letter of Notification be made available to the public. To obtain an electronic copy of the Letter of Notification please contact me at the number below.

In compliance with Rule 4906-6-01, et seq., of the OAC, we have prepared and filed the attached Letter of Notification with the OPSB. This Letter of Notification is currently pending before the board.

Please feel free to contact me at 614-552-1929 and I would be happy to answer any questions concerning this project.

Sincerely,

Brett E. Schmied
Project Outreach Specialist

Dear Mr. Mellinger:

In accordance with Rules 4906 of the Ohio Administrative Code (OAC), AEP Ohio Transmission Company, Inc., (AEP Ohio Transco) is required to submit a Letter of Notification to the State of Ohio Power Siting Board (OPSB) whenever certain changes are made to our transmission facilities.

The proposed Poston-Lick 138kV Transmission Line Rebuild Project, Public Utilities Commission of Ohio Case Number 16-0020-EL-BLN, consists of rebuilding of an existing 138-kilovolt (kV) transmission line within existing right-of-way. The total length of the Poston-Lick transmission line is approximately 35 miles long. AEP Ohio Transco plans to rebuild about 22 miles of the transmission line. In the future, about 13 miles of this transmission line will be retired and removed. AEP Ohio Transco will rebuild the single circuit transmission line using primarily two-pole or H-Frame 138-kV structures. This project will be an approximate \$20 million investment by AEP Ohio Transco. Construction is anticipated to begin in July 2016.

We ask that this Letter of Notification be made available to the public. To obtain an electronic copy of the Letter of Notification please contact me at the number below.

In compliance with Rule 4906-6-01, et seq., of the OAC, we have prepared and filed the attached Letter of Notification with the OPSB. This Letter of Notification is currently pending before the board.

Please feel free to contact me at 614-552-1929 and I would be happy to answer any questions concerning this project.

Sincerely,

Brett E. Schmied

In accordance with Rules 4906 of the Ohio Administrative Code (OAC), AEP Ohio Transmission Company, Inc., (AEP Ohio Transco) is required to submit a Letter of Notification to the State of Ohio Power Siting Board (OPSB) whenever certain changes are made to our transmission facilities.

The proposed Poston-Lick 138kV Transmission Line Rebuild Project, Public Utilities Commission of Ohio Case Number 16-0020-EL-BLN, consists of rebuilding of an existing 138-kilovolt (kV) transmission line within existing right-of-way. The total length of the Poston-Lick transmission line is approximately 35 miles long. AEP Ohio Transco plans to rebuild about 22 miles of the transmission line. In the future, about 13 miles of this transmission line will be retired and removed. AEP Ohio Transco will rebuild the single circuit transmission line using primarily two-pole or H-Frame 138-kV structures. This project will be an approximate \$20 million investment by AEP Ohio Transco. Construction is anticipated to begin in July 2016.

We ask that this Letter of Notification be made available to the public. To obtain an electronic copy of the Letter of Notification please contact me at the number below.

In compliance with Rule 4906-6-01, et seq., of the OAC, we have prepared and filed the attached Letter of Notification with the OPSB. This Letter of Notification is currently pending before the board.

Please feel free to contact me at 614-552-1929 and I would be happy to answer any questions concerning this project.

The total length of the Poston-Lick transmission line is approximately 35 miles long. AEP Ohio Transco plans to rebuild about 22 miles of the transmission line. In the future, about 13 miles of this transmission line will be retired and removed. AEP Ohio Transco will rebuild the single circuit transmission line using primarily two-pole or H-Frame 138-kV structures. This project will be an approximate \$20 million investment by AEP Ohio Transco. Construction is anticipated to begin in July 2016.

We ask that this Letter of Notification be made available to the public. To obtain an electronic copy of the Letter of Notification please contact me at the number below.

In compliance with Rule 4906-6-01, et seq., of the OAC, we have prepared and filed the attached Letter of Notification with the OPSB. This Letter of Notification is currently pending before the board.

Please feel free to contact me at 614-552-1929 and I would be happy to answer any questions concerning this project.

Sincerely,

RE: Letter of Notification
Poston-Lick 138kV Transmission Line Rebuild Project
Case Number: 16-0020-EL-BLN

Dear Ms. Fulton:

In accordance with Rules 4906 of the Ohio Administrative Code (OAC), AEP Ohio Transmission Company, Inc., (AEP Ohio Transco) is required to submit a Letter of Notification to the State of Ohio Power Siting Board (OPSB) whenever certain changes are made to our transmission facilities.

The proposed Poston-Lick 138kV Transmission Line Rebuild Project, Public Utilities Commission of Ohio Case Number 16-0020-EL-BLN, consists of rebuilding of an existing 138-kilovolt (kV) transmission line within existing right-of-way. The total length of the Poston-Lick transmission line is approximately 35 miles long. AEP Ohio Transco plans to rebuild about 22 miles of the transmission line. In the future, about 13 miles of this transmission line will be retired and removed. AEP Ohio Transco will rebuild the single circuit transmission line using primarily two-pole or H-Frame 138-kV structures. This project will be an approximate \$20 million investment by AEP Ohio Transco. Construction is anticipated to begin in July 2016.
