**Subject:** OPSB case # 16-0253-GA-BTX: Duke Central Corridor Extension Gas Pipeline

Dear Ohio Power Sitting Board,

I am writing to express my opposition of the proposed Duke Central Corridor Extension. All 3 of the proposed routes run through highly populated areas and pose great potential safety risks, negative environmental impact, negative financial impact to property owners and municipalities, and loss of land use for affected property owners who would be unfortunate enough to have the pipeline run through their property.

Due to the considerable negative impacts of the proposed pipeline I urge you to deny Duke's request for it's Central Corridor Pipeline Extension.

Thank you for your consideration,

Charles Knapke
