Dear Board members

I am writing in reference to the proposed gas transmission line being proposed my Duke Energy case 16-0253-GA-BTX. It is an outrage that Duke is considering placing a high volume high pressure 30 inch pipeline in the middle of an urban area. The danger and threat from an accident is too great. The risks to our children, homes, schools, hospitals, first responders, and houses of worship are too great to justify the desire of Duke Energy. If a transmission line is needed, please place it in a rural area. I stand firmly opposed to this proposal.
