To: The Ohio Power Siting Board

I am a resident of Sycamore Township, Ohio, a neighborhood known as Kenwood. I recently learned about Duke Energy's proposed Central Corridor Pipeline Extension Project and how a few of the proposed routes will run through my neighborhood. Please vote **against any** of the proposed routes associated with this proposal. Not only will it increase the potential danger to me and my neighbors from a gas leak but my property value will be significantly impacted which impacts my financial stability. I do not want to see this pipeline pass through any of the proposed neighborhoods, all of which are highly populated. There must be a better solution, one that will meet Duke Energy's needs and ensure the safety and security of me and my neighbors as well as the environment.

Please ask yourself, would you want this pipeline to pass through your neighborhood or your mother's neighborhood or your grandmother's neighborhood?

Thank you for your time and consideration.
