Subject: Case # 16-0253-GA-BTX

Dear board members,

As I join the voice of those in opposition to the Duke Energy's Central Corridor Pipeline Extension proposal (Case # 16-0253-GA-BTX), I urge you to thoroughly and compassionately consider the impact on the densely populated areas affected. First, I wonder if a pipeline is truly necessary. If the pipeline is necessary, I cannot believe there aren't routes through less populated and less established areas. You are well aware of the nursery schools, public and private schools, universities, businesses and local homeowners whose physical and economic well being are severely threatened by the proposed routes. Please do not sacrifice our well being for the financial gains of Duke Energy.

Sincerely,
Elizabeth Mayfield
