COMMENT DESCRIPTION:

This is in regard to Duke Pipeline proposed to go down from Mason to Norwood in ohio. My husband and I are strongly against a 30" pipeland placed through the most crowded area in the northeast corridor of cincinnati. They propose this pipeline will be completed in two years by late 2018. This pipeline should go around the city. If this line is to have high pressure gas line to bring gas from north or from fracking thru cincinnati to other states, i am completely against this. Let them by all the houses because prices will plummet here with mass sales. This isnt just one

neighborhood mall or a commercial building. This is many miles with leasing from small amounts land from neighbors with less than 1/4 acres. Never mind the danger and great potential of explosion which i have heard that happened in pensylvania in more rural areas and other places. Please put us on the record against such a project!! Thank you Alvin and Carolyn Denenberg
