COMPLAINT DESCRIPTION:

Dear PUCO representative: I'm writing for concern for the new gas line that DUKE energy is proposing in Blue Ash. Although I realize that it is important to find new ways to transport gas utilities, I urge you to have the company redirect the lines in a less residential area. One of the lines is going right next to my Children's school and right next to my house!!! That will lower my house value as well as create possible hazard for our neighborhood. Please reconsider where the lines are placed. Many houses in my neighborhood are rental properties so they can move,

This is to certify that the images appearing are an accurate and complete reproduction of a case file document delivered in the regular course of business.

PUCO

but I can't, nor do I want to. I love Blue Ash. It is a great community. It's sad that the government feels like it has no say against a huge company like DUKE. I have always had good experience with DUKE employees as a whole, but after reading about worst case scenarios of what could happen with explosions, I urge this commission to help us. Thank you for your time, Ginger Patterson 4th grade teacher Blue Ash resident
