**Subject:** 16-0253-GA-BTX Pipeline

Good afternoon,

I write to share with you my disagreement with the proposed installation of the high volume natural gas pipeline to run through the city of Cincinnati, case number 16-0253-GA-BTX. The damage and disruption this pipeline would have to the surrounding area is significant for an area this populated, and careful consideration should be given to such a project and the impact it would have. If an accident were to occur the damage would be unthinkable. There is no reason to run a gas line of this size through an area of dense population, next to schools, homes, hospitals, parks, and other important community areas. Please cease this project in its current scope, or stop it altogether.

Thank you,

Ann Lorentzen  
Cincinnati, OH
