To OPSBO sitting board

As a resident of Ridgewood, I am extremely concerned with the proposal of the huge and powerful pressure pipeline that would run through our suburban and urban neighborhoods. The possible hazard to life, environment and property seems far too destructive for OPSB to consider approving such a proposal.

Boards are created to discuss a subject relative to their designation ... make unbiased judgements on the information presented, with careful consideration to cause and effect on their communities.

Pease protect those people who depend on you for their safety and quality of their environment by saying NO to OPSB 16-0253-GA-BTX!
Thank you!

Harriett Wyatt Hart
Ridgewood/Cincin
