Good afternoon. I am writing to express my opposition to Duke's proposed Central Corridor Gas Pipeline Extension Project. As a resident of Cincinnati who lives less than a mile from the proposed pipeline, I urge you to strongly oppose this proposal.

Our Cincinnati neighborhood is a wonderfully, walkable, diverse community that works hard and diligently to welcome new residents and to push back crime and drugs from our neighborhood. New retail and restaurants will give our working-class neighborhood the push we need to get to the next step in our development as a safe place to live, work, play, eat, swim, and raise our children and pets.

As the center of one of the most important voting areas in Ohio and the United States, we urge you to both keep the power our diverse community has right here in the state to have our voices heard at the national level and to know that we do vote with our pocketbook and our hearts.

Having a pipeline through our neighborhood will drain Cincinnati of its population and political power.

While utilities are an important part of our state and national infrastructure, piping them through some of the most densely populated areas in the state of Ohio is not.

Thank you for your support for our neighborhood and state.
