Case # 16-0253-GA-  
BTX  
2016

June 19th,

Ryan P. Bonaventura  
10326 Giverny Blvd  
Evendale Ohio, 45241

To Whom it may concern,

Duke Energy is planning on constructing a natural gas pipeline through my neighborhood. I am writing this email in opposition of the overall project and more specifically the "Green Route". We already have a large gas line 200 yards in front of my house running through my neighborhood. I live in the Park Hills subdivision off of Glendale Milford Rd. After 2008 property values have been very slow to rebound and I believe this project will not only decrease property values, but increase my insurance costs and become a very dangerous environment. I have 2 young kids and we will literally live right next to the proposed "Green Route". In less than 20 years there have been 855 serious incidents in the US involving a gas line. If this route is chosen we will have not one, but two large natural gas lines just yards from my house.

I am asking you to deny Duke energy's plans to extend the pipeline through my town.

Thank you in advance of your support.

Thanks,

Ryan Bonaventura
