CASE\_NUMBER: 16-0253-GA-BTX

COMMENTS: Subject: OPSB case number: 16-0253-GA-BTX I am concerned about Duke Energy's proposed high-pressure natural gas pipeline through my neighborhood. It is an oversized pipeline that poses serious risk to the community, including a nearby school that is situated in the "blast zone" were there a breach or disaster. I stand with my community against this pipeline.

Running it through such a highly populated area is completely ill-advised and shows extreme disregard for public safety.

I am asking that you stop this expansion. There has to be a better solution for expanding the energy deliver through the Cincinnati area.

Thank you for your attention to this issue!

Laura Smith
