Good Morning,

I am writing today to express my staunch opposition to the Duke Energy Central Corridor Gas Pipeline project which has a proposed route through my community, Blue Ash, as well as the surrounding Pleasant Ridge area. I am shocked and disheartened that a project this dangerous would even be considered to run through such heavily populated areas. This pipeline is unacceptable not only because of the obvious health implications it would impose on our residents, but also because of the detrimental effect this pipeline would inevitably have on our property values.

It is time for our government to stand up to corporations putting communities at risk for the sake of profit. This is your chance to restore people's faith in the power of government to protect their best interests ahead of those of large corporations. You have a chance to be on the right side of history. You have a chance to prevent a disaster that could taint your legacy. You have a chance to save lives. I urge you to do what's right. Support the residents of these communities, make their well-being a priority ahead of corporate profits, and stop the central corridor gas pipeline from running anywhere near where people live, sleep, and participate in bettering their communities.

Thanks for your time.

Matt Hill
